## Program Overview

### Language Institute

Students will focus on strengthening English language acquisition skills through listening, speaking, reading, and writing.

Program Contact: [Maria Richison](#)

### STEM Camp

Students will experience hands-on lessons that introduce engineering skills in a fun and engaging environment.

Program Contact: [Todd Pope](#)

### TSI and TSTEM

Students will participate in challenging curriculum that will help them practice and prepare to take the Texas Success Initiative Assessment.

Program Contact: [Devin Holmes](#)

### Reading Camp

Students will participate in fun and engaging activities to increase their reading skills.

Program Contact: [Kerry Armstead](#)

### Credit Recovery/EOC Remediation

Students will be offered the opportunity to recover course credits or extra support with end of course testing.

Middle School Program Contact: [Dr. De La Pena](#)

High School Program Contact: [Shearil Hall](#)

### McKinny Vento & Military Connection

Students will have the chance to participate in unique and exciting skill enhancing activities based on the individual student's needs.

Program Contact: [Sylvia Greenwood](#)

### Acceleration Courses

Students will be offered the opportunity to earn credit for courses earlier than expected, which will allow for advanced courses in their upcoming schedule.

Program Contact: [Devin Holmes](#)
