JISD Superintendent Invites Community To Meet & Greet

Dr. Jeanette Ball...Judson ISD's new Superintendent has invited the community to a Meet and Greet Tuesday, October 30, 2018 at Kitty Hawk Middle School. She's extending an invitation to share her vision with parents and students and offer a look at how she sees the district's focus. Whether it's offering options to students in STEM or the Fine Arts, or preparing for college or a career, she sees these aspirations as important.

Dr. Ball, who's only been on the job since last July, will discuss the district's game plan on how to continue to build on academic progress that's been made. Other areas of discussion will be the district's new initiative for an all-day PreK program as well as the flurry of bond construction going on and the expected growth of the district.

The JISD Board hired Dr. Ball in July 2018. She came to the district from Uvalde CISD where she served as superintendent since 2013. In addition to being a superintendent in Uvalde, Dr. Ball's career has included working as a teacher, principal, and district office administrator in Southwest ISD.

Media is welcome to join us for this opportunity to meet and talk with Judson ISD's new superintendent.
