A special thank you to Judson High School for the design of the front cover and to all the individuals who contributed and provided feedback on the course catalog: Professional School Counselors, Curriculum Coordinators, Department of Career and Technology, Fine Arts, Curriculum \& Instruction, and Student and Family Support Services.

## Introduction

The Judson Independent School District Course Catalog lists courses that our high schools generally have available to students. It should be noted, that not all the courses listed are scheduled every school year. Since it is not economically feasible to schedule classes in which only a few students enroll, the class may not be offered for the current year. Sufficient numbers of student requests for specific courses then become the determining factor as to whether or not a course is scheduled.

The Course Catalog provides a Table of Contents to assist in locating specific areas of information. The first section of the guide contains general information. The second section provides the specific description of courses by department and/or subject area. Descriptions, prerequisites, grade levels, and credits are listed for each course. The last section lists career education courses and information.

The Course Catalog is also available online. www.judsonisd.org

Items in the catalog are subject to change.

UUDSON INDEPENDENT SCHOOL DISTRICT
Student \& Family Support Services

Thank you for taking the time to review the 2024-2025 School Year JISD Course Catalog. High School students will be following a traditional seven-period schedule.

The Judson ISD High School Course Catalog has been designed to provide our students and parents with helpful information regarding the courses offered in Judson ISD. In order to make appropriate course selections for the 2024-2025 school year it is extremely important that you and your student become familiar with the course catalog.

The Professional School Counselors (PSCs) of the Judson ISD Guidance and Counseling Department understand your student's abilities and interests and will offer guidance and suggestions based on those abilities. It is imperative that your student make individual choices for his/her schedule. In order to prepare for this selection process students have taken career interest inventories and have explored colleges and careers. Please refer to this catalog to answer any questions about courses your child is interested in taking. Judson ISD intends to offer every course described in this course catalog; however, staffing, class sizes, and funding will determine course availability.

After the registration window closes, course request changes may be made for extenuating circumstances. Changes made after the opening of the school year will be made for "leveling" class sizes, for administrative purposes, or for correcting errors and in accordance with the schedule change process in the course planning guide. Please make selections carefully.

It is Judson ISD's intent that your student has appropriate opportunities to select courses and makes the best possible choices. If you have any questions regarding particular courses and/or the course selection process, graduation requirements, or scheduling, please call your student's counselor.

We look forward to working with you and your student in preparing for a successful upcoming school year. Thank you for choosing Judson ISD.

Sincerely,
Monica Garcia
Executive Director of Student and Family Support Services

## $\int_{\text {General }} \mathrm{ISD}$ Information

## GENERAL INFORMATION

## Credit by Examination

In accordance with Board Policy EHDB (LEGAL), a student in any of grades 6-12 may be given credit for an academic subject in which he or she had some prior instruction if the student scores 70 percent or higher on a criterion referenced test approved by the Board for the applicable course.

## If a Student Has Not Taken the Course

A student will be permitted to take an exam to earn credit for an academic course for which the student has had no prior instruction. The scheduled dates for the exams during the school year are included in the student handbook. A student will earn credit with a passing score of at least $\mathbf{8 0 \%}$. If a student plans to take an exam, the student (or parent) must register with the Counseling Office no later than 30 days prior to the testing date. The district may deny a request by a parent or student to administer a test on a date other than the published dates. If the district agrees to administer a test other than the one chosen by the district, the parent must purchase a test from a university approved by the State Board of Education. For further information, see EEJB (LOCAL). For more information, see the Judson ISD website at http://www.Judsonisd.org

## English as a Second Language (ESL)

Judson ISD schools provide English as a Second Language (ESL) and sheltered instructional strategies to students identified as Emergent Bilingual (EB). Additionally, the high school language arts curriculum provides ESL support for English Language Learners who are recent immigrants ( $0-3$ years in U.S. schools) through an English for Speakers of Other Languages (ESOL) class. The purpose of the ESL program is to enable EB students to be competent in the comprehension, speaking, reading and composition of the English language through the integrated use of second language methods.

## Personal Graduation Plans (PGPs)

All students are required to complete a high school personal graduation plan (PGP) before they enter their 9th grade year which will include a four-year plan of study based on their selected endorsement/Program of Study. Texas Education Code 28.02121 states that the personal graduation plan "must include information concerning the benefits of choosing a high school personal graduation plan that includes the distinguished level of achievement under the foundation high school program and includes one or more endorsements to enable the student to achieve a class rank in the top 10 percent for students at the campus." The personal graduation plan is a working document that counselors will use to monitor student completion of graduation requirements.

## Section 504 Services

Section 504 of the Rehabilitation Act of 1973 is a Civil Rights Act, which prohibits discrimination against individuals with a disability in any program receiving Federal financial assistance. In order to fulfill its obligation under Section 504, Judson ISD recognizes a responsibility to avoid discrimination in policies and practices regarding its students. No discrimination against any students solely due to his/her disability will knowingly be permitted in any of the programs and practices in the school system. The school district has specific responsibilities under Section 504 which include the responsibility to identify, evaluate and, if the student is determined to be eligible under Section 504, to afford access to necessary educational accommodations. For more information regarding Section 504, contact the campus counselor.

## Special Education Services

Judson ISD provides a continuum of special education services for students with disabilities. Special education services are provided according to the student's Individualized Education Program (IEP) as per the recommendation of the Annual Review and Dismissal (ARD) Committee. For more information, please see the Judson ISD Special Education website at https://www.judsonisd.org/Page/16127

## Commencement Exercises

A student may take part in high school graduation exercises if he/she has successfully completed all as determined by TEA and Judson ISD, including all required state examinations and required course credits. If a student fails to meet any graduation requirement (e.g. passing all state Exit Level assessments) by the date of the graduation, the student may not participate in graduation exercises that school year. He/she may participate in graduation exercises following their completion of all requirements.

## NCAA

Student athletes will be required to file with the NCAA Clearinghouse to determine initial eligibility to participate in college athletics. Some Judson courses which count toward graduation are not accepted by the NCAA as core courses for college athletic eligibility. (www.ncaaclearinghouse.com)

## Student Registration Process

Counselors will meet individually with their students to provide support and guidance in building a course schedule for the upcoming school year. At the conclusion of the registration process, master scheduling will be built whereby faculty and staff will be assigned based on student course choices from registration. Schedules should not be changed after courses have been selected and entered with the counselor. Judson ISD does understand that certain circumstances may require modification to the student's schedule.

## Class Schedule Change Process

Students/Parents will receive a copy of the courses selected for upcoming school year. If a change is necessary, dates will be posted online for times where Judson ISD counselors will be available for course schedule modification. If dates are not conducive to meet with the counselor in person, schedule change requests may be submitted in writing, with a parent's signature, to the campus Counseling Office. Changes requested at the beginning of the school year will require students to submit a request in writing to the counselor. A personal conference with the student, parents, and the counselor is required before any requested class schedule changes will be made. Schedule changes for students with disabilities receiving special education services must be made through an ARD meeting or Amendment to the IEP. Counselors will contact the campus Special Education Department should a student receiving special education services request a schedule change.

## Dropping ACourse

When a student changes courses/teachers, it is the first teacher's responsibility to provide the new teacher with the student's average up to the date of transfer. The only exception is if the first course is not related to the student's second course (e.g. Biology to Spanish I)

## ISD <br> Academic <br> Achievement

## Academic Achievement

## Promotion/Retention (Grades 9-12)

Grade-level advancement for students in grades $9-12$ shall be based by course credits with a passing grade of $70 \%$ ) and attendance rate (see below). Any required course failed/denied credit during the school year should be retaken through summer school, night school, correspondence or credit-by-exam. Changes in grade level classification shall be made at the beginning of the fall term and at the end of the fall term. Any student who does not meet the requirements for promotion at the beginning of the school year will be reclassified to the previous grade. Current classification requirements are subject to revision. Please see JISD Grading Handbook for more information.

## Attendance Rate and Absences

Students must be in attendance for at least 90 percent of the days that school is in session to receive credit for the class. If students do not meet this requirement, only an official attendance committee can consider grade level advancement or credit reinstatement. (El Legal)

## Courses of Study/Advancement

Judson ISD follows the Texas Essential Knowledge and Skills (TEKS) approved by the State Board of Education. Students are required to demonstrate the knowledge and skills necessary to read, write, compute, problem solve, think critically, apply technology, and communicate across all subject areas.

## Rank in Class and Weighting Grade Policy (Grades 9-12)

Beginning with the ninth-grade students in the 2014-2015 school year, "quality points" shall be added as follows:

| Course Level/Rigor | Weight |
| :--- | :--- |
| AP | 1.2 |
| Honors/Dual Credit | 1.1 |
| Regular | 1.0 |

Class Rank / Highest-Ranking Student (Secondary Grade Levels Only) Grade point average and class ranking will be calculated during the following:

- At the end of student's 9th grade year and will be distributed to students in the beginning of their Sophomore year.
- At the end of the student's 10th grade year and distributed in the beginning of the student's Junior year.
- At the end of the student's 11th grade year and distributed in the beginning of the Senior year.
- Final GPA and Class Rank will be calculated during the student's senior year at the end of the first semester. All students within the top $10 \%$ of their class are eligible for consideration for automatic admission to Texas public universities (automatic admission requirement may vary at the discretion of the University, see your College Readiness counselor for more information) provided all application procedures are followed. Please See EIC Local for Class Rank Information.

Rank points shall be determined by multiplying each term grade of a ranked course by rank factor, which recognizes differences in levels of difficulty between AP, dual credit, honors, and regular coursework. The weighted grade average (WGA) determines the rank in class. The student earning the highest WGA shall be ranked No. 1 and all other students shall take the following positions in increasing numeric order.

## HONOR GRADUATES

Graduates are recognized by their cumulative grade average as follows:

| Summa Cum Laude | 98and Above |
| :---: | :---: |
| Magna Cum Laude | $95-97.99$ |
| Cum Laude | $90-94.99$ |

## Report Card/Progress Reports

At the end of the first three weeks of a grading period, students will be provided with a progress report. Report cards will be issued at the end of each nine-week grading period. Parents should refer to the school calendar for the dates of each nine-week grading period. Additionally, parents are encouraged to utilize PARENT CENTER to monitor student grades and attendance. Refer to the Judson website at www.judsonisd.org and look under the parent information tab for more details.

> GRADING SYSTEM
> $90 \%-100 \%=\mathrm{A}$
> $80 \%-89 \%=\mathrm{B}$
> $70 \%-79 \%=\mathrm{C}$
> $69 \%$ AND BELOW $=\mathrm{F}$
> Credit is not awarded for grades $69 \%$ and below STATE ASSESSMENTS STAAR

STAAR stands for State of Texas Assessments of Academic Readiness, which is the state's student testing program. The STAAR assessments are based on the states curriculum standards - the Texas Essential Knowledge and Skills (TEKS). In grades 3 through high school graduation, students will be tested in the core subject areas of reading/language arts, mathematics, science, and social studies. These assessments are offered online.

## What is the purpose behind STAAR or the standardized testing of my child?

STAAR tests show whether a student has mastered specific knowledge of a core subject at a certain grade level. Test results should provide parents assurance that their child is prepared to enter the next grade level within their school district or any Texas district. Finally, the results provide educators and administrators with uniform information about where to focus resources, especially in the core subjects being taught.

## What are the five tests required for high school?

In order to graduate from a Texas public high school, students must pass five end-of-course tests: English I, English II, Algebra I, Biology, and US History

## Will students who receive special education services take the STAAR?

The admission, review, and dismissal committee for a student who receives special education services will determine the appropriate test. Students taking STAAR may be eligible for designated supports to assist with accessibility to the test. An alternative test, STAAR Alternate 2, will be available for students with the most significant cognitive difficulties.

## How will student performance be reported?

After taking a STAAR exam, results will be reported based on one of four performance levels and can be accessed from www.texasassessment.com or through your Skyward Family Access Portal.

- Masters Grade Level- Students in this category demonstrate the ability to think critically and apply the assessed knowledge and skills in varied contexts, both familiar and unfamiliar.
- Meets Grade Level- Students in this category generally demonstrate the ability to think critically and apply the assessed knowledge and skills in familiar contexts.
- Approaches Grade Level- Students in this category generally demonstrate the ability to apply the assessed knowledge and skills in familiar contexts.
- Did Not Meet Grade Level- Students in this category do not demonstrate a sufficient understanding of the assessed knowledge and skills.

HB4545 - Accelerated Instruction
House Bill 4545 requires accelerated instruction for any student who did not pass STAAR grades $3,4,5,6,7,8$ or EOC assessments. Students will receive at least 30 hours of supplemental instruction per subject. Students who are absent or otherwise do not have valid assessments are required to receive accelerated instruction.

First Time EOC Testers and EOC Retesters
Accelerated instruction includes first time testers as well as retesters. Specifically, TEC, §28.0217 states: "Each time a student fails to perform satisfactorily" accelerated instruction is required.

## Where can I find more information about HB4545 - Accelerated Instruction?

https://tea.texas.gov/texas-schools/health-safety-discipline/covid/support-to-help-ensure-your-child-is-on-track-this-school-year
Where can I find more information about STAAR?
The latest information about STAAR can be found on the Texas Education Agency website at: https://tea.texas.gov/student-assessment

## ADVANCED ACADEMICS

## Honors Courses - Previously Pre-Advanced Placement

Honors courses are offered in most content areas that lead to one or more AP courses. Honors courses prepare students for the rigor of AP courses and develop content-specific skills students will need for success in their AP courses and beyond. They can also explore advanced topics and concepts.

## EARNING COLLEGE CREDIT IN HIGH SCHOOL

## Dual Credit

The high schools in Judson ISD partner with several colleges and universities to offer dual credit or dual enrollment classes that allow students to earn college and high school credit in the same course. Students must meet all admissions test requirements and submit applications through College or Career Counselor to the partnering college or university to enroll in these courses. Students must qualify and complete the enrollment process for these courses well in advance. The deadline for courses that begin in the fall is typically mid-April. The deadline for courses that begin in the spring is typically mid-November. Students who are interested in dual credit courses should contact their Counselor and the College or Career Counselor at their home campus for information about the courses available and the application process.

The courses that are available vary from campus to campus. The courses listed below may be offered as dual credit classes (subject to change). This list does not include CATE dual credit courses.

| Dual Credit Courses Offered at JISD |  |
| :---: | :---: |
| Art Appreciation | Physics I |
| Biology | Physics II |
| College Algebra | Psychology |
| Drama | Public Speaking |
| Economics | Sociology |
| English III | Texas Government |
| English IV | US Government |
| Music Appreciation | US History |

## Core Complete

All undergraduate students in Texas public higher education institutions have a 42 semester credit hour core curriculum designed by the Texas Higher Education Coordinating Board, with a purpose of ensuring all Texas undergraduate students develop essential knowledge and skills needed for success in their college studies, career endeavors, community involvement, and personal life. Judson ISD students can earn 42 term credit hours in High School.

## Advanced Placement

Each high school in Judson ISD offers a variety of Advanced Placement courses that allow students to earn college credit based on the College Board AP exams. Over 12,800 public colleges and universities and over 9,900 private colleges and universities have policies to award credit for AP exam scores. 23 states, including Texas, have credit policies that require public universities to award credit for AP. In Texas, public colleges and universities may not require a score higher than 3 for a student to be awarded college credit for their AP exam (HB 1992).

The courses listed below may be offered as AP classes.

| Advanced Placement Courses Offered at JISD |  |
| :---: | :---: |
| AP Spanish Language and Culture | AP Spanish Literature and Culture |
| AP Macroeconomics | AP US Government and Politics |
| AP Psychology | AP Studio Art: 2-D Design Portfolio |
| AP Studio Art: 3-D Design Portfolio | AP Studio Art: Drawing Portfolio |
| AP Art History | AP Physics I |
| AP Chemistry | AP Music Theory |
| AP Human Geography | AP European History |
| AP Calculus BC | AP Statistics |
| AP Computer Science Principles | AP Computer Science |
| AP Physics II | AP Environmental Science |
| AP English Language and Composition | AP English Literature and |
| AP Biology | AP US History |
| AP Calculus AB | AP World History: Modern |
| AP Precalculus | AP African American History |

# College Readiness Testing Information 

PSAT
The PSAT is given in October to sophomores and juniors. This is a preliminary test for the SAT college entrance exam and for juniors it is the qualifying exam for the National Merit Scholarship Contest. Many scholarships or college applications will ask for junior year PSAT scores. This test covers Evidence- Based Reading and Writing and Mathematics. It is a valuable predictor for success in higher level courses, such as AP, future SAT scores, and success in college.https://collegereadiness.collegeboard.org/psat-nmsat-psat-10

## SAT

SAT is one of two college entrance exams required by most colleges and universities. The SAT measures Evidence-Based Reading and Writing, and Mathematics needed to succeed in college-level work. The SAT is currently provided to all juniors during the school day in March. Seniors are given the SAT during the school day in October. There is no charge for the SAT taken during the school day. The SAT is also given on Saturdays several times a year. Pre-registration for Saturday testing is required about six weeks in advance and test fees apply. Fee waivers may be available for students who qualify. https://collegereadiness.collegeboard.org/sat

## ACT

The ACT is one of two college entrance exams required by most colleges and universities. ACT test skills in English, Math, Science, and Reading. ACT is given free to all students during the fall semester of their senior year. Also, ACT exams are given on several Saturdays throughout the year. Pre- registration is required about six weeks in advance and test fees apply. Fee waivers maybe available for students who qualify. https://www.act.org/

## Advanced Placement (AP)

The College Board AP exams are given once a year in May. Each three-hour exam covers college level content for a specific course and is given during the school day. The tests consist of both multiple choice and freeresponse questions. Scores range from 1-5, with most colleges awarding credit for scores of 3 or higher. Judson ISD covers the cost of these exams for all students. https://apstudent.collegeboard.org/home

## Texas Success Initiative

The Texas Success Initiative Assessment is a state-legislated exam to determine student readiness for success in college. The TSI Assessment is required for dual credit and Early College High School classes. The TSI tests skills in Reading, Writing and Mathematics. Judson ISD provides the TSI Assessment to students that require the test for their academic program at no cost. http://www.collegeforalltexans.com/

## College Transition Information

The "Keys to Success" begin with:

- Step 1: Scholarships
> Apply early for scholarships. (Be aware of deadline dates and request letters ofrecommendation early)
> Request official transcripts early
> Notify High School Counselor of scholarship awards
- Step 2: Fill Out the FAFSA (Free Application for Federal Student Aid), (all students should apply regardless of income)
> Register for a Personal Identification Number at https://studentaid.gov/fsa-id/create-account/launch
> Complete the FAFSA online application each year beginning October 1 of your senior year at: https://studentaid. gov/h/apply-for-aid/fafsa
> Link your FAFSA application with your IRS tax return (Tax forms from Prior 2 years will be used)
> Electronically sign FAFSA application using your PIN number. Do this as soon as possible, on or after Oct 1
- Step 3: Review Your Student Aid Report (SAR)
> Once you complete the FAFSA, the Department of Education will send you a SAR. This report summarizes the information you provided on your FAFSA and estimates your Expected Family Contribution (EFC).
> If your EFC is lower than the college's cost of attendance, you will likely qualify for financial aid.
- Step 4: Compare Your Financial Aid Packages
> Each school listed on your FAFSA will receive a copy of your SAR, use the information to prepare a financial aid package.
> Your financial aid package, also known as your award letter, will list grants, scholarships, and work-study funds the school is allocating, along with your eligibility for federal student loans.
> Follow up with Financial Aid Office regarding Student Aid Report (SAR)
- Step 5: Check for Award Letter
> Log onto your school account to check for your financial aid award
> Accept the award
> Contact the financial aid office if additional information is requested
- Step 6: Student/Parent Loans
> Make sure your financial aid award will cover all your college costs
> See Financial Aid Administrator for loans
- Step 7: Money Management
> Create a budget (based on actual income minus expenses)
> Don't forget to budget for books (used or rented books are always more cost effective)
> Stay away from credit cards and have knowledge of your credit.

## Judson ISD 2024-2025 <br> HIGH SCHOOL CHALLENGE AGREEMENT

Honors and Advanced Placement (AP) are for those students who possess a high interest in a particular content area and who desire academic challenge both inside and outside the classroom. Students who choose to enroll in advanced courses should:

- Be self-motivated and self-disciplined
- Be able to work independently
- Be willing to complete assignments outside of the classroom
- Be able to measure success and learning beyond a numerical grade
- Be able to follow the honor code as outlined in the JISD student handbook

Students and parents must agree that when a student enrolls in an Honors or AP course, he or she makes a commitment to that course. Schedule changes from an Honors or AP class to a regular class will follow the guidelines below:

1. Students must remain in the Honors or AP course the first two weeks for a semester course or the first five weeks for a yearlong course. This is an adequate amount of time for students to experience the pace and complexity of the course as well as to determine whether or not this is an appropriate placement for them.
2. If a student is struggling during the initial period of instruction as outlined above and considering a schedule change, a parent/teacher conference must occur.
3. Parents, students, and teachers may initiate a schedule change into a regular class after the initial period of instruction. A request for change form must be completed and then submitted to the counselor or academic dean with teacher, parent, and student signatures.
4. If the student fails to earn the first 0.5 credit of an Honors or AP course, a schedule change to a regular class for the remainder of the course may be recommended. A parent/teacher/counselor conference should take place to discuss possible impact of remaining in the course.

In an effort to provide continuous support throughout the year, parents, teachers and students are encouraged to maintain ongoing communication using email, phone calls and conferences. Teachers offer tutorial sessions before and after school. Students should make a concerted effort to attend the tutoring sessions.

AP exams are offered at no charge to students. It is the expectation that every student taking an AP course also sit for the corresponding AP exam.

To ensure placement in the desired Honors or AP courses, please sign and attach this form to the course selection sheet before the end of the registration period to indicate agreement with the statements above.

## Getting Started

To complete this process, you will need to be invited by your Student or their Counselor with a "claim code" to associate a student to your account.

Visit http://app.schoolinks.com/claimstudent as mentioned in the claim instructions sent by your student or their counselor.
You have two options for login:

Option 1:
This is your first time on SchooLinks

Option 2:
You've already created an account and need to log in

## Option 1: This is your first time on SchooLinks

Click on Create a Guardian Account box.
From here, enter the claim code and your relationship with the student.

Click Add, and then proceed to enter your information to create the account.

You can use Google or LinkedIn Single Sign-on, or create an account using a Phone or Email and Password.

Proceed to Claiming your Student

## Option 2: You've already created an account

Click on Log in to your Guardian Account option if you haven't already.

From Guardian \& Members tab, you can use Single Sign-on or sign in using a Phone/Email \& Password.

Proceed to Claiming your Student

## Claiming your Student

Once you're logged in or an account has been created, click on Account Settings in the upper right corner. Click on My Students. Enter the Claim Code and your relationship with the student. Then click Add.

It will now show that you've claimed your student! You can repeat the claim process to add another student or return to the dashboard if you are done claiming students for now.

On the dashboard you can also add additional students from the My Students drop-down.

## Incorporación de Tutores

## Empezando

Para completar este proceso, deberá ser invitado por su estudiante o su consejero con un "código de reclamo" para asociar un estudiante a su cuenta.

Visite http://app.schoolinks.com/claim-student como se menciona en las instrucciones de reclamo enviadas por su estudiante o su consejero. Tienes dos opciones para iniciar sesión:

## Opción I:

Esta es su primera vez en SchooLinks.

## Opción 2:

Ya ha creado una cuenta y necesita iniciar sesión.

## Opción I: Esta es su primera vez en SchooLinks

Haga clic en el cuadro Crear una cuenta de tutor. Desde aquí, ingrese el código de reclamo y su relación con el estudiante.

Haga clic en Agregar y luego proceda a ingresar su información para crear la cuenta.

Puede usar el inicio de sesión único de Google o LinkedIn, o crear una cuenta usando un teléfono o correo electrónico y contraseña.

Proceda a reclamar a su estudiante.

## Incorporación de Tutores

## Opción 2: Ya ha creado una cuenta y necesita iniciar sesión.

Haga clic en la opción Iniciar sesión en su cuenta de Guardian si aún no lo ha hecho.

En la pestaña Tutor y miembros, puede usar el inicio de sesión único o iniciar sesión con un teléfono/correo electrónico y contraseña.

Proceda a reclamar a su estudiante

## Reclamando a su Estudiante

Una vez que haya iniciado sesión o haya creado una cuenta, haga clic en Configuración de la cuenta en la esquina superior derecha. Haga clic en Mis estudiantes. Ingrese el Código de Reclamo y su relación con el estudiante. Luego haga clic en Agregar.
¡Ahora mostrará que ha reclamado a su estudiante! Puede repetir el proceso de reclamo para agregar otro estudiante o regresar al panel de control si terminó de reclamar estudiantes por ahora.

En el tablero, también puede agregar estudiantes adicionales desde el menú desplegable Mis estudiantes.

## ISD <br> Course <br> Descriptions

## Course Descriptions

## REGULAR LEVEL OF INSTRUCTION

A regular course indicates that the content is on grade level and the level of instruction meets the needs of college bound students. Advanced courses are those courses designated as honors and allow students to master advanced concepts above and beyond the regular curriculum.

## ENGLISH LANGUAGE ARTS

English Language Arts and Reading courses include study in the areas of reading, writing, oral and written conventions, research, listening, speaking, and comprehension. The sequence of English courses taken is English I, English II, English III, and English IV. Since courses build on the previous year, it is recommended that students take no more than one core English course during the same year.

## LANGUAGES OTHER THAN ENGLISH

Languages Other Than English (LOTE) courses offered in Judson ISD are Spanish, American Sign Language, and German. The Texas Essential Knowledge and Skills for Languages Other Than English (TEKS for LOTE) are the foundation of all Judson ISD LOTE curriculum. *Please note: if there are not enough students enrolled in the class these courses may not be offered.

## SOCIAL STUDIES

Social Studies focuses on developing reflective, democratic citizenship within a global context. Disciplines typically classified as belonging to the social and behavioral sciences are history, geography, and content selected from law, philosophy, and the humanities. It also includes those courses that focus on social problems, issues, economics, and controversies. The social studies are both single-discipline and multi-discipline oriented depending upon the objectives being taught.

## MATHEMATICS

The mathematics sequence of courses includes Algebra I, Geometry, Algebra II, Mathematical Models, PreCalculus, Calculus and Statistics. These courses offer a variety of mathematical topics for students to engage in and to develop an understanding of math concepts required for college and career readiness.

## SCIENCE

The science program is designed for students to use their senses and instruments to acquire data. Student investigations emphasize accurate observations, collection of data, analysis and safe manipulation of laboratory apparatus and materials in the field and the laboratory. At least $40 \%$ of instructional time, involves field and laboratory investigations.

## SPECIAL EDUCATION COURSES

The school district curriculum enables each student with disabilities to acquire knowledge and skills in the basic areas of learning commensurate with the student's needs and abilities. These skills maybe attained in the general program of instruction or through special education instruction and related services, as determined by the admission, review, and dismissal (ARD) committee.

## HEALTH AND PHYSICAL EDUCATION

In Physical Education, students acquire the knowledge and skills for movement that provide the foundation for enjoyment, continued social development through physical activity, and access to a physically active lifestyle. The student exhibits a physically active lifestyle and understands the relationship between physical activity and health throughout the lifespan.

| 694 NEWCOMERS' ENGLISH LANGUAGE DEVELOPMENT 1 (ELDA 1) 03200800 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Newcomers English Language Development 1 (ELDA): This course is offered during the student's first term and designed to provide instructional opportunities for secondary recent immigrant students with little or no English proficiency. These students are newcomers less than 12 months in U.S. schools and have scored at the negligible/very limited CALP level of the state approved English oral language proficiency tests. This course will be issued as an elective credit during a time frame of the student's first term. |

695 NEWCOMERS' ENGLISH
LANGUAGE DEVELOPMENT 2
(ELDA 2)
03200810

Newcomers English Language Development (ELDA 2) The
second section of the course is designed to provide English
language development for immigrant students with little or no
English proficiency. More rigorous than ELDA 1, this course
prepares students for a smooth transition and success with the
ESOL/ELPS, and ELA TEKS leading to the College \& Career
Readiness Standards.
Prerequisite ELDA 1

| 117R READING I $9^{\text {th }}$ Grade 03270800 | Yearlong <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Reading I offer students instruction in word recognition, comprehension strategies and vocabulary to ensure that they have an opportunity to read with confidence and understanding. Students are given opportunities to locate information in varied sources, to read critically, to evaluate sources, and to draw supportable conclusions. Students learn how various texts are organized and how authors choose language for effect. All these strategies are applied in tests that cross the subject fields. This course is not to be substituted for any of the four units of English required for graduation. Prerequisite Recommendation of Counselor or Reading Specialist |
| :---: | :---: | :---: |
| 118R READING II 03270800 | Yearlong <br> Grade 10 <br> Credit 1 <br> Weight 1.0 | Reading II offers students continued instruction in word recognition, comprehension strategies and vocabulary to ensure that they have an opportunity to read with confidence and understanding. Students are given opportunities to locate information in varied sources, to read critically, to evaluate sources, and to draw supportable conclusions. Students learn how various texts are organized and how authors choose language for effect. All these strategies are applied in tests that cross the subject fields. This course is not to be substituted for any of the four units of English required for graduation. Prerequisite Recommendation of Counselor or Reading Specialist |
| 119R READING III 03270900 | Yearlong <br> Grade 11 <br> Credit 1 <br> Weight 1.0 | Reading III a third-year course is designed for students who need literacy strategies/skills which is designed to ensure passing state standards as well as success beyond high school. Reading III helps those eleventh graders who have completed Reading I and Reading II and who still need additional help and support with reading. <br> Prerequisite Recommendation of Counselor or Reading Specialist |
| 111 CREATIVE WRITING 03221200 | Yearlong <br> Grade 12 <br> Credit 1 <br> Weight 1.0 | This composition course requires high school students to write poetry, fiction, non-fiction and drama. They will demonstrate an understanding of the recursive nature of the writing process through reading, writing, studying and analyzing various literary forms and literary criticism. Students will develop their versatility as writers. |
| 112 PRACTICAL WRITING 03221300 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | This course emphasizes skill in the use of conventions and mechanics of written English, the appropriate and effective application of English grammar, the reading comprehension of informational text, and the effective use of vocabulary. Evaluation of students' own writing as well as the writing of others ensure that students completing this course are able to analyze and evaluate their writing. |
| 113 LITERARY GENRES 03221500 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Students enrolled in Literary Genres will spend time analyzing the fictional and poetic elements of literary texts and read to appreciate the writer's craft. High School students will discover how well written literary text can serve as models for their own writing. Highs school students respond to oral, written, and electronic text to connect their knowledge of the world. |

| 114H HUMANITIES I HONORS 03221600 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | Humanities I is an interdisciplinary course in which students recognize writing as an art form and prepares students for the Academic Decathlon contest. This course includes the study of major historical and cultural movements and their relationship to literature and the other fine arts. Humanities is a rigorous course of study in which high school students respond to aesthetic elements in texts and other art forms through outlets such as discussions, journals, oral interpretations, and dramatizations. It also prepares students to compete in Academic Decathlon, which is an interdisciplinary competition and includes speech, essay, and interview. |
| :---: | :---: | :---: |
| 115H HUMANITIES II HONORS 03221610 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | Humanities II is a continuation of Humanities I and prepares students for the Academic Decathlon contest. This course includes the study of major historical and cultural movements and their relationship to literature and the other fine arts. Humanities is a rigorous course of study in which high school students respond to aesthetic elements in texts and other art forms through outlets such as discussions, journals, oral interpretations, and dramatizations. It also prepares students to compete in Academic Decathlon, which is an interdisciplinary competition and includes speech, essay, and interview. |
| 120 INTRODUCTIONTO JOURNALISM <br> 03230100 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course provides a survey study of the fields of journalism and photojournalism. It examines the role and the responsibility of media, explores newspaper structure and function, and examines methods of news gathering and reporting. Fundamental skills of journalism will be stressed: writing news, features, and editorials, developing interviewing skills and learning page layout. Fundamental skills of photojournalism will also be addressed, including how to take pictures with a digital camera, download photographs on the computer and crop and resize photographs in the program Photoshop. Students must take this course prior to being placed in Yearbook Production or Newspaper Production. |
| 140-142 NEWSPAPER PRODUCTION 1-3 <br> 1-03230140 <br> 2-03230150 <br> 3-03230160 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | This course gives students practical experience in the field of journalism by working as a staff member on the school newspaper. Students will be involved in all areas of production. Prerequisite: Introduction to Journalism |
| 143-145 YEARBOOK PRODUCTION 1-3 1-03230110 $2-03230120$ $3-03230130$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | This course gives students practical experience in the field of journalism through the work as a staff member on the school yearbook. Students will be involved in all areas of production and must be willing to work after school to ensure production of the yearbook by given deadlines. <br> Prerequisite: Introduction to Journalism |
| 153-155 DEBATE 1-3 $1-03240600$ $2-03240700$ $3-03240800$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Students are required to compete at Texas Forensic League and UIL Tournaments. Students are instructed in the fundamentals o debate; logic and reasoning, persuasion, analysis, development oideas through argumentation, case construction, speake, responsibilities, cross- examination, ethics, philosophy, and competitive debate techniques. Students will experience extemporaneous speaking and oration. This course is designed for students who show marked evidence of the ability to read, think and analyze critically. |

| 175 COLLEGE PREPARATORY | Yearlong | In this college-preparatory course students will improve <br> ENGLISH LANGUAGE ARTS |

LANGUAGESOTHER THAN ENGLISH (LOTE)
The curriculum for AP courses is prescribed by the College Board. For AP course information, access https://apstudent.collegeboard.org/apcourse

## Suggested Guidelines for LOTE Honors \& AP courses

- Student should have strong personal commitment to accomplishing goals and objectives of the course.
- Student should have high academic interest and work ethic in LOTE and English Language Arts.
- Student is encouraged to seek teacher advisement.
- Student should have passed STAAR Reading and Writing.

All prerequisites are suggested guidelines designed to aid the student in choosing the course in which he/she will most likely succeed. A student's teacher is the best advisor for content specific information.
**Two credits of the same LOTE courses are required for graduation. Refer to your graduation plan fordetails. **

| $\begin{aligned} & \hline 601 \text { SPANISH I } \\ & 03440100 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course introduces the three modes of communication (interpersonal, interpretive, and presentational) by focusing on the development of the speaking, listening, reading, and writing skills at the novice proficiency level. Cultural information provides enrichment to the study of the language. Students have the opportunity to use the target language through pair work and small group as well as role-play real-life situation. |
| :---: | :---: | :---: |
| $\begin{aligned} & \hline 602 \text { SPANISH II } \\ & 03440200 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course introduces the three modes of communication (interpersonal, interpretive, and presentational) by focusing on the development of the speaking, listening, reading, and writing skills at the novice proficiency level. Cultural information provides enrichment to the study of the language. Students have the opportunity to use the target language through pair work and small group as well as role-play real-life situations. Prerequisite: $\mathbf{7 0}$ or higher in Spanish I |
| 602H SPANISH II HONORS 03440200 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | This course exceeds the Level 2 requirements by including many independent activities requiring performance in the target language. The students will continue to expand on the three modes of communication (interpersonal, interpretive, and presentational) by a continued focus on the development of the speaking, listening, reading, and writing skills at the intermediate proficiency level through an enriched and accelerated curriculum. Cultural information continues to provide enrichment to the study of the language. <br> Prerequisite: 70 or higher in Spanish I |
| $\begin{aligned} & \hline 603 \text { SPANISH III } \\ & 03440300 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course continues to work towards proficiency on the three modes of communication (interpersonal, interpretive, and presentational) by continuing to focus on the development of the speaking, listening, reading, and writing skills at the intermediate proficiency level. Cultural topics are integrated throughout the curriculum. Students have the opportunity to use the target language through pair work and small group as well as role-play real-life situation. <br> Prerequisite: 70 or higher in Spanish 2 |

| 603H SPANISH III HONORS 03440300 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | Level III Honors is an advanced course recommended for students with a strong interest in LOTE and good study skills. This course continues to work towards proficiency on the three modes of communication (interpersonal, interpretive, and presentational) by continuing to focus on the development of the speaking, listening, reading, and writing skills at the intermediate to advance proficiency level. The study of some condensed literary works will incorporate the development of reading comprehension and writing skills. Cultural topics are integrated throughout the curriculum. Students have the opportunity to use the target language through individual, pair, and group work to allow increased creativity and the use of higher-order thinking skills. Prerequisite: 70 or higher in Spanish 2 |
| :---: | :---: | :---: |
| 604A AP LANGUAGE AND CULTURE-SPANISH A3440100 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.2 | Students enrolled in this course are expected to take the Advanced Placement Exam in May for possible college credit. This course will use the College Board curriculum in order to prepare students for the Advanced Placement Language and Culture exam. Group and independent activities will facilitate intensive student use of the target language in all aspects of the course. <br> Prerequisite: Level 3 Honors of same language \& see suggested guidelines |
| 605A AP SPANISH LITERATURE \& CULTURE <br> A3440200 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.2 | Students enrolled in this course are expected to take the Advanced Placement Exam in May for possible college credit. This course will use the College Board curriculum to prepare students for the Advanced Placement Literature and Culture exam. <br> Prerequisite: Level 4 AP \& see suggested guidelines ${ }^{\prime}$ |
| 606 LANGUAGES OTHER THAN ENGLISH <br> SPANISH FOR SPANISH <br> SPEAKERS LEVEL II $03440220$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | This course exceeds Level 2 and is for heritage Spanish speaking students who understand and speak Spanish at a basic level and requires students to work on independent activities requiring performance in the use of the target language. Students will also expand their knowledge and appreciation of the culture, literary and civilization of the Spanish speaking world. Students will continue to develop and refine their Spanish skills in the development of the three modes of communication interpretive, interpersonal and presentational through an enriched and compact curriculum. <br> Prerequisite: Native Spanish Speaker |
| 631 AMERICAN SIGN LANGUAGE I 03980100 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This is the first course of a recommended two-year sequence designed to develop fundamental language necessary to develop receptive and expressive skills. The culture and heritage of the hearing-impaired community is integrated into all aspects of the course. Student will develop confidence in using ASL to describe familiar topics such as family, hobbies, and school life. Students should be able to understand and communicate in the target language at Novice Mid Proficiency to Novice High Proficiency level. <br> ASL 2 will be offered 2025-2026 |
| $\begin{aligned} & 621 \text { GERMAN } 1 \\ & 03420100 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This is the first course of a recommended two-year sequence designed to develop fundamental language across the interpretive, interpersonal, and presentational modes of communication through Language Acquisition and comprehensible input. The culture and civilization of the Spanishspeaking world is integrated into all aspects of the course. Student will develop confidence in using spoken Spanish to describe familiar topics such as family, hobbies, and school life. Students should be able to understand and communicate in the target language at Novice Mid Proficiency to Novice High Proficiency level. German 2 will be offered 2025-2026 |

#### Abstract

Please Note: Students will have the opportunity to enroll in several levels of language classes from I-IV and may take regular, Honors, and/or Advanced Placement classes. With the opportunity to begin language study in middle school, students must earn two credits of the same language for graduation requirements. A student may have an option to change language or continue in the chosen language. If a student completes all four levels of Spanish, the student may have the opportunity to obtain a Biliteracy Seal on their diploma that will indicate that the student is literate in the language.

## SOCIAL STUDIES

| 201R WORLD GEOGRAPHY STUDIES $03220100$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | In World Geography Studies, students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present with emphasis on contemporary issues. Emphasis is placed on geographical processes, which affect decisions concerning interrelationships among nations, production, and distribution of goods, uses and abuses of resources, movement and distribution of population, cultural impact on society, and political and economic conditions. Pre-AP World Geography Studies includes content and develops skills students will need for success in social studies AP courses in subsequent years. |
| :---: | :---: | :---: |
| 201H WORLD GEOGRAPHY STUDIES HONORS 03320100 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | In World Geography Studies Honors, students examine people, places, and environments at local, regional, national, and international levels from spatial and ecological perspectives. Students describe the influence of geography on events of the past and present with emphasis on contemporary issues. Emphasis is placed on geographical processes, which affect decisions concerning interrelationships among nations, production, and distribution of goods, uses of resources, movement and distribution of population, cultural impact on society, and political and economic conditions. |
| 210AAP HUMAN GEOGRAPHY A3360100 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.2 | The AP Human Geography course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. |
| 202R WORLD HISTORY STUDIES $03340400$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | World History Studies is a survey of the history of humankind. The major emphasis is on the study of significant people, events, and issues from the earliest times to present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. |
| $\begin{aligned} & \text { 202AAP WORLD HISTORY: } \\ & \text { MODERN } \\ & \text { A3370100 } \end{aligned}$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.2 | Modern is an introductory college-level modern world history course. Students cultivate their understanding of world history from c. 1200 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. |
| 203R UNITED STATES STUDIES HISTORY SINCE 1877 $03340100$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In United States History Studies Since 1877, students study the history of the United States from 1877 to the present. The course content is based on the founding documents of the U.S. government, which provide a framework for its heritage. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements, including civil rights. |

| 203A AP US HISTORY A3340100 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.2 | AP U.S. History is designed to be the equivalent of a two- term introductory college or university U.S. history course. In AP U.S. History students investigate significant events, individuals, developments, and processes in nine historical periods from approximately 1491 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical comparisons; and utilizing reasoning about contextualization, causation, and continuity and change over time. The course also provides seven themes that students explore throughout the course to make connections among historical developments in different times and places: American and national identity; migration and settlement; politics and power; work, exchange, and technology; America in the world; geography and the environment; and culture and society. |
| :---: | :---: | :---: |
| 203D1 SOCIAL STUDIES ADVANCED STUDIES <br> Dual Credit HIST 1301 - US HISTORY I (Fall Term) 03380001 | Semester <br> Grade 11 <br> Credit . 5 <br> Weight 1.1 <br> College Credit: <br> 3 Hours | The History 1301 (Fall Term) course includes the study of preColumbian, colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in this course include American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and creation of the federal government. Prerequisite: TSI College Readiness in ELAR |
| 203D U.S. HISTORY Since 1877 <br> Dual Credit <br> HIST 1302- U.S. HISTORY II <br> (Spring Term) <br> 03340100 <br> NOTE: Shared PEIMS WITH OTHER S.S. ADVANCED STUDIES. Check for other classes with the same PEIMS | Semester <br> Grade 11 <br> Credit 1 <br> Weight 1.1 <br> College Credit: <br> 3 Hours | The History 1302 (Spring Term) course examines industrialization, immigration, world wars, the Great Depression, Cold War, and post- Cold War eras. Themes that may be addressed in this course include American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy. <br> Prerequisite: "C" or better in History 1301 |
| 206 UNITED STATES GOVERNMENT 03330100 | Semester <br> Grade 11-12 <br> Credit . 5 <br> Weight 1.0 | United States Government focuses on the principles and beliefs upon which the United States was founded, as well as the structure, functions, and powers of government at the national, state, and local levels. Students learn major political ideas and forms of government in history. A significant focus of the course is on the U.S. Constitution, its underlying principles and ideas, and the form of government it created. |
| 206A AP UNITED STATES GOVERNMENT \& POLITICS A3330100 | Semester <br> Grade 11-12 <br> Credit .5 <br> Weight 1.2 | AP United States Government and Politics is a college-level introduction to key political concepts, ideas, institutions, policies, interactions, roles and behaviors that characterize the constitutional system and political culture of the United States. Students will read and analyze US foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions between political institutions and behavior. They will read and interpret data, develop evidence-based arguments, and engage in an applied civics or politics research-based project. |

| 206D UNITED STATES GOVERNMENT <br> Dual Credit GOVT 2305-Federal Government 03330100 | Semester <br> Grade 11-12 <br> Credit . 5 <br> Weight 1.1 <br> College Credit: <br> 3 Hours | The Government 2305 course focuses on the origin and development of the U.S. Constitution. It also includes the following topics: the study of the structure and powers of the national government, federalism, political participation, the national election process, public policy, civil liberties, and civil rights. Prerequisites: TSI College Readiness in ELAR |
| :---: | :---: | :---: |
| 219D2 TEXAS GOVERNMENT <br> SS ADVANCED STUDIES <br> Dual Credit <br> GOVT 2306 - Texas Government <br> 03380021 | Semester <br> Grade 11-12 <br> Credit 5 <br> Weight 1.1 <br> College Credit: <br> 3 Hours | The Government 2306 course focuses on the origin and development of the Texas constitution. It also includes the following topics: structure and powers of state and local government, federalism and inter-governmental relations, political participation, the election process, public policy, and the political culture of Texas. <br> Prerequisites: TSI College Readiness in ELAR |
| 207 ECONOMICS WITH EMPHASIS ON THE FREE ENTERPRISE SYSTEM 03310300 | Semester <br> Grade 11-12 <br> Credit 5 <br> Weight 1.0 | Economics with Emphasis on the Free Enterprise System is the culmination of economic content and concepts studied from previous required secondary social studies courses. The focus is on the basic principles of production, consumption, and distribution of goods and services in the United States and makes a comparison with economies in other parts of the world. |
| 207A AP MACROECONOMICS <br> A3310200 | Semester <br> Grade 11-12 <br> Credit .5 <br> Weight 1.2 | AP Macroeconomics is an introductory college-level course that focuses on the principles that apply to an economic system as a whole. The course places particular emphasis on the study of national income and price-level determination; it also develops students' familiarity with economic performance measures, the financial sectors, stabilization policies, economic growth, and intentional economics. Students learn to use graphs, charts and data to analyze, describe and explain economic concepts. |
| 217 PERSONAL FINANCIAL LITERACY and ECONOMICS 03380083 | Semester <br> Grades 11-12 <br> Credit 0.5 <br> Weight 1.0 | The Personal Financial Literacy and Economics course emphasizes the economic way of thinking, which serves as a framework for the personal financial decision-making opportunities introduced in the course. Students will demonstrate the ability to anticipate and address financial challenges as they occur over their lifetime. In addition, students are introduced to common economic and personal financial planning terms and concepts. As a result of learning objective concepts and integrating subjective information, students gain the ability to lead productive and financially self-sufficient lives. <br> Can be taken in place of ECONOMICS 207. <br> Based on the Division I and II Academic Eligibility requirements of the NCAA, students could not receive credit for the Personal Financial Literacy and Economics course but still meet the social studies NCAA course requirements with the current social studies graduation requirement of Texas. |
| 207D ECONOMICS <br> Dual Credit <br> ECON 2301 Principles of Macroeconomics $03310300$ | Semester <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.1 <br> College Credit 3 Hours | An analysis of the economy as a whole, including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy. <br> Prerequisites: TSI College Readiness in ELAR |

| 212AAP EUROPEAN |  |  |
| :--- | :--- | :--- |
| HISTORY |  |  |
| A3340200 | Yearlong | AP European History is designed to be the equivalent of a two- <br> term introductory college or university European history course. <br> In AP European History students investigate significant events, <br> Grade 10-12 <br> Credit 1 <br> Weight 1.2 <br> individuals, developments, and processes in four historical <br> periods from approximately 1450 to the present. Students develop <br> and use the same skills, practices, and methods employed by <br> historians: analyzing primary and secondary sources; developing <br> historical arguments; making historical comparisons; and utilizing <br> reasoning about contextualization, causation, and continuity and <br> change over time. The course also provides six themes that |
| students explore throughout the course in order to make |  |  |
| connections among historical developments in different times and |  |  |
| places: interaction of Europe and the world; poverty and |  |  |
| prosperity; objective knowledge and subjective visions; states |  |  |
| and other institutions of power; individual and society; and |  |  |
| national and European identity. |  |  |

## SOCIAL STUDIES ELECTIVES

| $\begin{aligned} & \text { 230R PSYCHOLOGY } \\ & 03350100 \end{aligned}$ | Semester <br> Grade 9-12 <br> Credit 5 <br> Weight 1.0 | Psychology is an introductory study in the science of behavior and mental processes. Students will examine the full scope of the science of psychology, such as historical framework, methodologies, human development, motivation, emotion, sensation, perception, personality development, cognition, learning, intelligence, biological foundations, mental health, and social psychology. |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { 230A AP PSYCHOLOGY } \\ & \text { A3350100 } \end{aligned}$ | Semester <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.2 | The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation, and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, students employ psychological research methods, including ethical considerations, as they use the scientific method, evaluate claims, and evidence, and effectively communicate ideas. |
| 230D PSYCHOLOGY <br> Dual Credit <br> PSYC 2301-General Psychology 03350100 | Semester <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.1 <br> College Credit <br> 3 Hours | The Psychology 2301 course introduces the study of behavior and the factors that determine and affect behavior and mental processes <br> Prerequisites: TSI College Readiness in ELAR |
| $\begin{aligned} & \text { 231R SOCIOLOGY } \\ & 03370100 \end{aligned}$ | Semester <br> Grade 9-12 <br> Credit . 5 <br> Weight 1.0 | Sociology is an introductory study in social behavior and organization of human society. This course will describe the development of the field as a social science by identifying methods and strategies of research leading to an understanding of how the individual relates to society and the ever-changing world. Students will also learn the importance and role of culture, social structure, socialization, and social change in today's society. |
| 231D SOCIOLOGY <br> Dual Credit <br> SOCI 1301 - Introduction to Sociology $03370100$ | Semester <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.1 <br> College Credit <br> 3 Hours | Sociology 1301 is an introduction to the concepts and principles used in the study of group life, social institutions, and social processes. It addresses the following objectives: Critical Thinking, Communication, Empirical Quantitative Skills, and Social Responsibility. <br> Prerequisites: TSI College Readiness in ELAR |
| 218 PERSONAL FINANCIAL LITERACY 03380082 | Semester <br> Grade 10-12 <br> Credit 5 <br> Weight 1.0 | Personal Financial Literacy develops students' knowledge and skills in making decisions that lead to personal financial responsibility. In this researched based course, students apply critical thinking and problem-solving skills to analyze decisions involving earning and spending. |

| $\begin{aligned} & 211 \text { ETHNIC STUDIES } \\ & \text { MEXICAN AMERICAN STUDIES } \\ & 03380084 \end{aligned}$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In Mexican American Studies, students learn about the history and cultural contributions of Mexican Americans. Students will explore history and culture from an interdisciplinary perspective. They will have opportunities to interact with relevant film, literature, art, and other media. The course emphasizes developments in the twentieth and twenty-first centuries, as well as covering developments prior to the twentieth century. |
| :---: | :---: | :---: |
| 224WGx WOMEN AND GENDER STUDIES <br> Special Topics in Social Studies <br> 224WG1-03380002 <br> 224WG2-03380022 <br> 224WG3-03380032 <br> 224WG4-03380042 <br> NOTE: SHARED PEIMS WITH OTHER S.S. SPECIAL TOPICS COURSES. May need to move to the next level if $\qquad$ | Semester <br> Grade 11-12 <br> Credit 5 <br> Weight 1.0 | Women and Gender Studies covers the historic, political, economic, geographic, multicultural, and social forces that have shaped the historical perspective of women and individuals throughout history and across cultures. Students examine various issues, experiences, and developments in policies affecting gender roles, as well as critically think and respond to theories and methodologies relating to women and the consideration of gender in society. |
| 223 AFRICAN AMERICAN STUDIES <br> 03380085 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | In African American Studies, students learn about the history and cultural contributions of African Americans. This course is designed to assist students in understanding issues and events from multiple perspectives regarding the historical roots of the African American culture. It provides an analysis of important ideas, social and cultural values, beliefs, and traditions. within which to address current issues facing the United States. |
| 224HF1-3 HISTORY THROUGH FILM <br> Special Topics in Social Studies <br> 224HF1-03380002 <br> 224HF2-03380022 <br> 224HF3-03380032 <br> NOTE: SHARED PEIMS WITH OTHER S.S. SPECIAL TOPICS COURSES. May need to move to the next level if taking another special topic class. | Semester <br> Grade 9-12 <br> Credit 5 <br> Weight 1.0 | History through Film asks students to select, arrange, and interpret facts for the purpose of telling the story of an era through film. Students will think like a historian while evaluating films based on historical events or figures. They will also consult various texts, collaborate with peers, and explore film appreciation using films as historical evidence. |
| 224CRXCOMPARATIVE RELIGION <br> 224CR1-03380002 <br> 224CR2-03380022 <br> 224HF3-03380032 <br> NOTE: SHARED PEIMS WITH OTHER S.S. SPECIAL TOPICS COURSES. May need to move to the next level if taking another special topic class. | Semester <br> Grade 9-12 <br> Credit 5 <br> Weight 1.0 | Comparative Religions offers students an opportunity to compare what are considered to be the five major world religions-Judaism, Hinduism, Christianity, Buddhism, and Islam. The course emphasizes scholarly research and historical inquiry that will assist students to become global citizens and understand the diversity of the world around them. |

## MATHEMATICS

| $\begin{aligned} & \text { 301R ALGEBRA I } \\ & 03100500 \end{aligned}$ | Yearlong <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Algebra $I$ is the foundation for the study of all high school mathematics courses. In this course, students will study linear, quadratic, and exponential functions and make connections to both mathematical and real-world situations. Students will solve linear systems and create new functions through transformations; use technology to collect and analyze data; and study polynomials, radical expressions, sequences, and laws of exponents. The use of a graphing calculator is considered an integral part of the course and will be used to build understanding, make connections between representations, and provide support in solving problems. Students will have access to a graphing calculator as appropriate during instruction in the classroom. Prerequisite: Grade 8 Mathematics or Equivalent. |
| :---: | :---: | :---: |
| 301H ALGEBRA I HONORS 03100500 | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.1 | Algebra I Honors is the foundation for the study of all high school mathematics courses. In this course, students will study linear, quadratic, and exponential functions and make connections to both mathematical and real-world situations. Students will solve linear systems and create new functions through transformations; use technology to collect and analyze data; and study polynomials, radical expressions, sequences, and laws of exponents. The use of a graphing calculator is considered an integral part of the course and will be used to build understanding, make connections between representations, and provide support in solving problems. Students will have access to a graphing calculator as appropriate during instruction in the classroom. <br> Students registering for Honors are encouraged to review the Challenge Agreement for advanced courses. <br> Prerequisite: Grade 8 Mathematics or Equivalent |
| 300R STRATEGICLEARNING <br> FOR HIGH SCHOOL <br> MATHEMATICS <br> N1110030 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course is intended to create strategic mathematical learners. The basic understandings of this course will stimulate students to think about their approach to mathematical learning including identifying errors in the teaching and learning process. Use of personal data and statistical analysis will establish relevance and aid in the creation of personalized learning goals. Students enrolled in this course will receive an elective credit. <br> NOTE: Does not count as a math credit; this is an elective |
| $\begin{aligned} & \text { 302R GEOMETRY } \\ & 03100700 \end{aligned}$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In this course students will build on knowledge and skills from previous math courses to strengthen their mathematical reasoning and skills in geometric contexts. Concepts that will be covered in this course include coordinate and transformational geometry; logical argument and constructions; congruence, similarity, and trigonometry; two- and three-dimensional figures; circles; and probability. Students will have access to a graphing calculator as appropriate during instruction in the classroom. Prerequisite: Algebra I |

$\left.\begin{array}{|l|l|l|}\hline \text { 302H GEOMETRY HONORS } & \text { Yearlong } & \begin{array}{l}\text { In Geometry honors students will build on knowledge and skills } \\ \text { 03100700 } \\ \text { from previous math courses to strengthen their mathematical } \\ \text { Credit 1 } \\ \text { reasoning and skills in geometric contexts. Concepts that will be } \\ \text { covered in this course include coordinate and transformational }\end{array} \\ \text { Weight 1.1 } \\ \text { geometry; logical argument and constructions; congruence, } \\ \text { similarity, and trigonometry; two- and three- dimensional figures; } \\ \text { circles; and probability. Students will have access to a graphing } \\ \text { calculator as appropriate during instruction in the classroom. The } \\ \text { honors option in instruction includes content and develops skills } \\ \text { students will need for success in AP Calculus or AP Statistics } \\ \text { courses in subsequent years. Students registering for honors are }\end{array}\right\}$

| 303H ALGEBRA II HONORS 03100600 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.1 | In Algebra II Honors, students will broaden their knowledge of quadratic and exponential functions and systems of equations. Students will explore new functions including logarithmic, square root, cubic, cube root, absolute value, and rational functions. Students will extend their knowledge of data analysis, numeric, and algebraic methods and make connections to both mathematical and real-world situations. The use of a graphing calculator is considered an integral part of the course and will be used to build understanding, make connections between representations, and provide support in solving problems. Students will have access to a graphing calculator as appropriate during instruction in the classroom. The honors option in instruction includes content and develops skills students will need for success in AP Calculus or AP Statistics courses in subsequent years. Students interested in registering for honors are encouraged to review the Challenge Agreement for advanced courses. <br> Prerequisite: Algebra I |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { 310R STATISTICS } \\ & 03102530 \end{aligned}$ | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | In Statistics, students will broaden their knowledge of variability and statistical processes. Students will study sampling and experimentation, qualitative and quantitative data, probability, and bivariate data. Student will extend their knowledge of data analysis and make connections to real- world situations and statistical processes. The use of a graphing calculator is considered an integral part of the course and will be used to build understanding, make connections between representations, and provide support in solving problems. Students will have access to a graphing calculator as appropriate during instruction in the classroom. <br> Prerequisite: Algebra I |
| 315RALGEBRAIC REASONING 03102540 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In Algebraic Reasoning, students will continue to develop mathematical reasoning related to algebraic understandings and processes and deepen a foundation for studies in subsequent math courses. Students will continue working with functions and relationships including linear, quadratic, square root, rational, cubic, cube root, exponential, absolute value, and logarithmic functions. Students will study these functions through analysis and application that includes explorations of patterns and structure, number and algebraic methods, and modeling from data using tools that build to workforce and college readiness such as probes, measurement tools, and software tools, including spreadsheets. Students will have access to a graphing calculator as appropriate during instruction in the classroom. <br> Prerequisite: Algebra I |

$4^{\text {th }}$ and $5^{\text {th }}$ YEAR MATHEMATICS COURSE OPTIONS

| 309R PRE-CALCULUS | Yearlong | Pre-calculus is the preparatory course for calculus. This course is <br> taught with a function-based approach and is designed to build <br> conceptual understanding and mathematical reasoning by modeling <br> and solving real-world problems. This course will strengthen |
| :--- | :--- | :--- |
| Grade 12 |  |  |
| Credit 1 |  |  |
| Weight 1.0 | students' understanding and fluency with algebra and <br> trigonometry allowing them to make connections and apply <br> concepts while analyzing complex situations. Students will have <br> access to a graphing calculator as appropriate during instruction |  |
| in the classroom. |  |  |
| Prerequisite: Algebra I, Geometry, Algebra II |  |  |
| Recommended Entry Requirements: 75 average in Algebra II |  |  |

| 311A AP CALCULUS AB A3100101 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.2 | $A P$ Calculus $A B$ is roughly equivalent to a first term college calculus course devoted to topics in differential and integral calculus. The AP course covers topics in these areas, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions. Prerequisite: Precalculus |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { 312A AP CALCULUS BC } \\ & \text { A3100102 } \end{aligned}$ | Yearlong <br> Grade 12 <br> Credit 1 <br> Weight 1.2 | AP Calculus BC is roughly equivalent to both first and second term college calculus courses. It extends the content learned in $A B$ to different types of equations (polar, parametric, vectorvalued) and new topics (such as Euler's method, integration by parts, partial fraction decomposition, and improper integrals), and introduces the topic of sequences and series. The AP course covers topics in differential and integral calculus, including concepts and skills of limits, derivatives, definite integrals, the Fundamental Theorem of Calculus, and series. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions. <br> Prerequisite: Pre-Calculus |
| 310A AP STATISTICS A3100200 | Yearlong <br> Grade 12 <br> Credit 1 <br> Weight 1.2 | The AP Statistics course is equivalent to a one-term, introductory, non- calculus-based college course in statistics. The course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. There are four themes in the AP Statistics course: exploring data, sampling, and experimentation, anticipating patterns, and statistical inference. Students use technology, investigations, problem solving, and writing as they build conceptual understanding. <br> Prerequisite: Algebra II |
| 303D1 INDEPENDENT STUDY IN MATHEMATICS <br> Dual Credit <br> MATH 1314-COLLEGE <br> ALGEBRA <br> 03102500 <br> NOTE: SHARED PEIMS WITH OTHER INDEPENDENT STUDIES IN MATH COURSES. | Semester <br> Grade 10-12 <br> Credit 1 <br> Weight 1.1 <br> College Credit <br> 3 Hours | This course provides an in-depth study and application of polynomial, rational, radical, exponential, and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. <br> Prerequisites: Algebra I, Geometry, Algebra II, and TSI College Readiness in Math |
| S303D1 INDEPENDENT STUDYIN MATHEMATICS Dual Credit <br> MATH 1414-COLLEGE <br> ALGEBRA <br> 03102500 <br> NOTE: SHARED PEIMS WITH OTHER INDEPENDENT STUDIES IN MATH COURSES. | Semester <br> Grade 10-12 <br> Credit 1 <br> Weight 1.1 <br> College Credit 4 Hours | This course targets math or science college majors as it prepares students for a pre-calculus track while providing them an in-depth study and application of polynomial, rational, radical, exponential, and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included. <br> Prerequisites: Algebra I, Geometry, Algebra II and TSI College Readiness in Math |

| 348A AP COMPUTER SCIENCE A (MATH) A3580110 <br> AP COMPUTER SCIENCE A (LOTE) <br> A3580120 <br> This is a single course with two awarding credits | Yearlong <br> Grade 9-12 Credit 2 Math 1 credit <br> LOTE 1 credit Weight 1.2 | AP Computer Science A is equivalent to a first-term, college-level course in computer science. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. The AP Computer Science A course curriculum is compatible with many CS1 courses in colleges and universities. <br> Recommended Prerequisites: Computer Science I, Algebra II, or a student should be comfortable with functions and the concepts found in the uses of functional notation such as $f f(x x)=x x+22$ and $f f(x x)=g g(h h(x x))$ <br> Students in this class will earn 1 Math and 1 LOTE credit on their high school transcript |
| :---: | :---: | :---: |
| 361 COLLEGE PREPARATORYCOURSE <br> MATHEMATICS <br> CP111200 | Yearlong <br> Grade 12 <br> Credit 1 <br> Weight 1.0 | Topics for this course include real numbers, basic geometry, polynomials, factoring, linear equations, inequalities, quadratic equations, rational expressions, radicals, algebraic fractions, complex numbers, graphing linear equations and inequalities, quadratic equations, systems of equations, graphing quadratic equations and an introduction to functions. Emphasis is placed on algebraic techniques in order to successfully complete an entrylevel college mathematics course. Calculator use is allowed in this course when indicated, including the departmental term examination. <br> Prerequisite: Algebra I |
| 362 COLLEGE <br> PREPARATORY <br> MATHEMATICS ONLINE <br> CP111200 | Semester <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | The purpose of this course is to reinforce and build upon algebra topics to prepare the student for college readiness. This course is a blend of Elementary and Intermediate Algebra which will prepare the student for success in a college-entry math course, such as College Algebra. The coursework requires students to be proficient both with and without the calculator through an adaptive online program, Texas College Bridge. Students will need to complete the 2 parts of the program with $90 \%$ mastery. Completion of this course fulfills the requirements for a TSI Exemption in Math. <br> Prerequisites: Algebra I and Geometry. Preferably Algebra II |

## SCIENCE

| $\begin{aligned} & \text { 401R BIOLOGY } \\ & 030010200 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Students in Biology focus on patterns, processes, and relationships of living organisms through four main concepts: biological structures, functions, and processes; mechanisms of genetics; biological evolution; and interdependence within environmental systems. By the end of Grade 12, students are expected to gain sufficient knowledge of the scientific and engineering practices across the disciplines of science to make informed decisions using critical thinking and scientific problem solving. Students are expected to perform laboratory and field experiments $40 \%$ of the time and are required to complete the End of Course exam. <br> Prerequisite: none |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { 401H BIOLOGY HONORS } \\ & 030010200 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | The Biology honors course provides students a rigorous and highly challenging curriculum focused on the same strands as the regular biology course. The curriculum for this course is aligned to College Readiness Standards as measured by high school AP exams. In honors Biology, students focus on patterns, processes, and relationships of living organisms through four main concepts: biological structures, functions, and processes; mechanisms of genetics; biological evolution; and interdependence within environmental systems. By the end of Grade 12, students are expected to gain sufficient knowledge of the scientific and engineering practices across the disciplines of science to make informed decisions using critical thinking and scientific problem solving. Students are expected to perform laboratory and field experiments $40 \%$ of the time and are required to complete the End of Course exam. <br> Prerequisite: none |
| $\begin{aligned} & \text { 402A AP BIOLOGY } \\ & \text { A3010200 } \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.2 | AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquirybased investigations as they explore the following topics: evolution, cellular processes-energy and communication, genetics, information transfer, ecology, and interactions. This course requires that 25 percent of the instructional time will be spent on hands-on laboratory work, with an emphasis on inquirybased investigations that provide students with opportunities to apply the science practices. <br> Recommended Prerequisite: Biology I and Chemistry |
| 401DN1 SPECIALIZED TOPICS <br> in SCIENCE <br> Dual Credit <br> BIOL 1408-BIOLOGY FOR <br> NON-SCIENCE MAJORS I <br> 03060300 <br> NOTE: SHARED PEIMS WITH OTHER SPECIALIZEDTOPICS IN SCIENCE COURSES | Semester <br> Grade 10-12 <br> Credit 1 <br> Weight 1.1 <br> College Credit <br> 3 Hours | This course focuses on the fundamental principles of living organisms including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Concepts of reproduction, genetics, ecology, and the scientific method are included. <br> Prerequisites: TSI College Readiness in ELAR \& Math |

| 414R INEGRATED PHYSICS AND CHEMISTRY 03060201 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use engineering practices, use scientific practices during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter. By the end of Grade 12, students are expected to gain sufficient knowledge of the scientific and engineering practices across the disciplines of science to make informed decisions using critical thinking and scientific problem solving. <br> Prerequisites: none |
| 411R CHEMISTRY $03040000$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | In Chemistry, students conduct laboratory and field investigations, use scientific practices during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include characteristics of matter, use of the Periodic Table, development of atomic theory, chemical bonding, chemical stoichiometry, gas laws, solution chemistry, acid-base chemistry, thermochemistry, and nuclear chemistry. Students investigate how chemistry is an integral part of our daily lives. <br> Prerequisites: One unit of high school science and Algebra I |
| 411H CHEMISTRY HONORS 03040000 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.1 | The Chemistry honors course provides students a rigorous and highly challenging curriculum focused on the same strands as the regular chemistry course. The curriculum for this course is aligned to College Readiness Standards as measured by high school AP exams. In honors Chemistry, students conduct laboratory and field investigations, use scientific practices during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include characteristics of matter, use of the Periodic Table, development of atomic theory, chemical bonding, chemical stoichiometry, gas laws, solution chemistry, acid-base chemistry, thermochemistry, and nuclear chemistry. Students investigate how chemistry is an integral part of our daily lives. <br> Prerequisites: One credit of high school science \& Algebra I |

| 413A AP CHEMISTRY A3040000 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.2 | This course is designed to prepare students with strong academic backgrounds by receiving instruction at the college level. Advanced study of chemical concepts with emphasis on laboratory experience is an integral part of this course. Students may receive college credit for this course through the AP exam. Prerequisite: Biology I and Chemistry I. Algebra II is highly recommended |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { 431R PHYSICS } 1 \\ & 03050000 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | In Physics, students conduct laboratory and field investigations, use scientific practices during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include laws of motion, changes within physical systems, conservation of energy and momentum, forces, characteristics and behavior of waves, and electricity and magnetism. Students will apply conceptual knowledge and collaborative skills to experimental design, implementation, and interpretation. By the end of Grade 12, students are expected to gain sufficient knowledge of the scientific and engineering practices across the disciplines of science to make informed decisions using critical thinking and scientific problem solving. <br> Algebra I is suggested as a prerequisite or co-requisite |
| 431A AP PHYSICS 1 A3050003 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.2 | AP Physics 1 is an Algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: kinematics; dynamics; circular motion and gravitation; energy; momentum; simple harmonic motion; torque and rotational motion; electric charge and electric force; dc circuits; and mechanical waves and sound. This course requires that 25 percent of the instructional time will be spent on hands-on laboratory work, with an emphasis on inquiry-based investigations that provide students with opportunities to demonstrate the foundational physics principles and apply the science practices. Prerequisite: Geometry and Concurrent Enrollment in Algebra II |
| 432AAP PHYSICS 2 A3050004 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.2 | AP Physics 2 is an Algebra-based, introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore these topics: fluids; thermodynamics; electrical force, field, and potential; electric circuits; magnetism and electromagnetic induction; geometric and physical optics; and quantum, atomic, and nuclear physics. This course requires that 25 percent of the instructional time will be spent on hands-on laboratory work, with an emphasis on inquiry-based investigations that provide students with opportunities to demonstrate the foundational physics principles and apply the science practices. <br> Prerequisite: AP Physics I or Physics I and Concurrent Enrollment in Precalculus |

## SCIENCE ELECTIVES

| T405R ANATOMY AND PHYSIOLOGY OF HUMAN SYSTEMS $13020600$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific and engineering methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. This is a suggested scope and sequence for the course content. This content will work with any textbook or instructional materials. If locally adapted, make sure all TEKS are covered. <br> Recommended prerequisite: A course from the Health Science Career Cluster. |
| :---: | :---: | :---: |
| 425R ASTRONOMY $03060100$ | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | In Astronomy, students conduct laboratory and field investigations, use scientific methods, and make informed decisions using critical thinking and scientific problem solving. Students study the following topics: astronomy in civilization, patterns and objects in the sky, our place in space, the moon, reasons for the seasons, planets, the sun, stars, galaxies, cosmology, and space exploration. Students who successfully complete Astronomy will acquire knowledge within a conceptual framework, conduct observations of the sky, work collaboratively, and develop critical-thinking skills. <br> Prerequisite: One unit of high school science |
| 420R AQUATIC SCIENCE 03030000 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In Aquatic Science, students study the interactions of biotic and abiotic components in aquatic environments, including impacts on aquatic systems. Investigations and field work in this course may emphasize fresh water or marine aspects of aquatic science depending primarily upon the natural resources available for study near the school. Students who successfully complete Aquatic Science will acquire knowledge about a variety of aquatic systems, conduct investigations and observations of aquatic environments, work collaboratively with peers, and develop critical-thinking and problem-solving skills. <br> Prerequisite: One unit of high school Biology. <br> Suggested prerequisite: Chemistry or concurrent enrollment in Chemistry |
| 421R ENVIRONMENTAL <br> SYSTEMS <br> 03020000 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | In Environmental Systems students conduct laboratory and field investigations, use scientific and engineering methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include biotic and abiotic factors in habitats, ecosystems and biomes, interrelationships among resources and an environmental system, sources and flow of energy through an environmental system, relationship between carrying capacity and changes in populations and ecosystems, and changes in environments. <br> Prerequisite: One unit of high school life science and one unit of high school physical science |

| 428AAP ENVIRONMENTAL <br> SCIENCE <br> A3020000 <br> NOTE: SHARED PEIMS WITH OTHER SCIENTIFIC RESEARCH AND DESIGN COURSES. May need to move to the next level. | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.2 | The AP Environmental Science course is designed to be the equivalent of a one-term, introductory college course in environmental science, through which students engage with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world. The course requires that students identify and analyze natural and humanmade environmental problems, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving or preventing them. Environmental Science is interdisciplinary, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography. <br> Prerequisite: Biology I, Chemistry I, and AlgebraI |
| :---: | :---: | :---: |

Physical Education Substitutions: Students may substitute certain physical activities for the one credit required for physical education. Such substitutions occur in 9th grade during the fall term for Cheerleading, Dance, JROTC I, and Band I. Students may also substitute one credit of PE through participation in athletics. A student may earn up to four credits in athletics: one for PE and three elective credits.

| 512R HEALTH 1 |  |  |
| :--- | :--- | :--- |
| 03810100 | Semester | The goal of health education is to provide instruction that allows <br> youth to develop and sustain health-promoting behaviors <br> throughout their lives. The understanding and application of these |
| Grade 9-12 |  |  |
| Credit.5 |  |  |
| Weight 1.0 |  |  |$\quad$| understand health information; achieve health literacy; and adapt |
| :--- |
| to the ever-evolving science of health. The health education |
| knowledge and skills should be presented to students in a positive |
| manner to support the development of a healthy self-concept and |
| responsible decision-making. The standards will help students |
| reinforce, foster, and apply positive character traits. |

| 502R SKILL BASED LIFETIME ACTIVITIES <br> PES00056 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The Skill-Based Lifetime Activities course offers students the opportunity to demonstrate mastery in basic sport skills, basic sport knowledge, and health and fitness principles. Students will experience opportunities that promote physical literacy and lifetime wellness. Students in Skill-Based Lifetime Activities will participate in a minimum of one lifelong activity from each of the following five categories during the course. |
| :---: | :---: | :---: |
| 521PE JROTC I PE SUBSTITUTION PESOOOO4 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The course emphasizes the practical application of learned followership principles and techniques and what is learned in the classroom. Activities at the individual cadet level include drill and ceremony, inspections, and hands-on exercises in map reading, first aid, basic rifle marksmanship, and physical fitness. <br> NOTE: This course qualifies as a PE substitution course |
| $\begin{aligned} & 522 \text { JROTC II } \\ & 03160200 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course emphasizes the practical application of learned leadership principles and techniques and what is learned in the classroom. Activities at the squad level include teaching drill and ceremony, conducting inspections, and coaching hands-on exercises in map reading, first aid, basic rifle marksmanship, and physical fitness. |
| $\begin{aligned} & \text { 523 JROTC III } \\ & 03160300 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course emphasizes the practical application of learned leadership principles and techniques and what is learned in the classroom. Activities at the platoon level include teaching drill and ceremony, coordinating inspections, individual and squad leader cadets and platoon administration. The student learns how to apply battalion standard operating procedures in administration, awards, promotions, and recruiting. The course also covers the developing, implementing, training, and operating of plans and the supervising hands-on activities in map reading, first aid, basic rifle marksmanship, and physical fitness. |
| $\begin{aligned} & 524 \text { JROTC IV } \\ & 03160400 \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course emphasizes the practical application of learned leadership principles and techniques and what is learned in the classroom. Activities at the company and battalion level include leading drill and ceremony, conducting inspections, Unit/Regular and cadet evaluations, Unit/Regular administration: applying battalion standard operating procedures in administration, awards, promotions, recruiting, developing, planning, implementing, operations plans and monitoring/training specialty teams such as the drill teams, color guards, rifle teams, orienteering teams, and saber guards. The course also includes the evaluating status and conduct of map reading, first aid, basic rifle marksmanship, physical fitness, and other subjects covered on the training schedules. |

| 530 FOOTBALL <br> 532 BASKETEBALL-BOYS <br> 534 BASKETBALL-GIRLS <br> 536 VOLLEYBALL <br> 538 TENNIS <br> 540 BASEBALL <br> 542 GOLF <br> 544 WRESTLING - BOYS <br> 545 WRESTLING - GIRLS <br> 547 SOCCER - BOYS <br> 548 SOCCER-GIRLS <br> 550 SOFTBALL <br> 552 SWIMMING <br> 554 TRACK - BOYS <br> 556 TRACK - GIRLS <br> 558 CROSS COUNTRY <br> ATHLETICS <br> PES00000 <br> PES00001 <br> PES00002 <br> PES00003 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Students enrolled in Athletics are required to have a current physical exam on file with the trainer as per U.I.L. in order to participate and complete the Rank One registration prior to participating. Accelerated physical education activities, calisthenics, skills strength training, or conditioning exercises will be conducted during the school year within the school day. Full team drills are conducted for team UIL sports practices. Students enrolled in athletics will receive one state credit in the fall term and one local credit in the Spring Term up to four years of athletics. Students enrolled in Team Sports are expected to develop health-related fitness and an appreciation for teamwork and fair play. <br> Athletics must have the coach's approval. |
| :---: | :---: | :---: |
| OLYMPIC WEIGHLIFTING <br> 526R <br> 527R <br> 528R <br> 529R | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Olympic Weightlifting is designed for the beginning or novice weightlifter, or for those who have experience lifting but lack proper technique. Students will gain an understanding of biomechanics, muscles used for a given exercise, and complete technical progressions of all the Olympic Weightlifting movements and program development. Individual fitness levels are assessed four times throughout the semester. Students will be taught by a teacher certified in weightlifting. |
| $\begin{aligned} & 585 \text { Team Sports Officiating } \\ & \text { N1160012 } \end{aligned}$ | Semester <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.0 | Students enrolled in Team Sport Officiating learn rules and regulations of selected team sports, developing skills in the area of communication, decision making, and conflict management which are needed to officiate team sport competitions. Working with coaches, players, other officials, and parents, the expectation is that by the end of the course students will have the ability to officiate at various levels and manage responsibilities that come with the role. Students will be introduced to the rules of the games and officiating mechanics based on approved University Interscholastic League (UIL) association specifications which will form a foundation for a lifetime advocation in officiating. |

|  |  | Experienced officials will assist in providing "real-world" <br> experiences in preparing the students for the situations they will <br> face. Students will also develop a personal fitness plan and safety |
| :--- | :--- | :--- |
| plan that directly relates to the needs of an official. Students apply |  |  |
| time management skills and adhere to professional |  |  |
| responsibilities and standards including the Sports |  |  |

## COURSES THAT RECEIVE PE CREDIT

| $\begin{aligned} & \text { 570CHEERLEADING } \\ & \text { PES00013 } \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | High schools provide spirit organizations whose major functions are to serve as spirit, service, and performing groups for their schools. Students must meet eligibility requirements to participate. Students must try out for Cheer. <br> Students will earn 1 Physical Education substitution credit for $1^{\text {st }}$ year in Cheerleading |
| :---: | :---: | :---: |
| 508-511 DANCE PERFORMANCE PESUBSTITUTION PES00014 | Yearlong <br> Grade 9-12 <br> Credits 2 <br> PE-1 Credit <br> Fine Arts-1 Credit <br> Weight 1.0 | Students enrolled in these courses learn motor skills basic to efficient movement. They develop and practice behaviors reflective of good sportsmanship and participate in fitness and conditioning activities. <br> Students will earn 1 credit in Physical Education for the Fall Semester (Drill Team PES00014) <br> Students will earn . 5 credit in fine arts in the Fall Semester and .5 credit in the Spring Semester <br> All other Dance Performance courses will be awarded fine arts credit only. |
| 731 MARCHING BAND/COLOR GUARD PES00012 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Band courses support continuing development of instrumental music skills and musical understanding which began in elementary and/or middle school. <br> Marching Band will earn 1 credit in Physical Education for the Fall Semester (PES00014) |
| $\begin{aligned} & \text { 521PE JROTC I } \\ & \text { PE SUBSTITUTION } \\ & \text { PES00004 } \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The course emphasizes the practical application of learned followership principles and techniques and what is learned in the classroom. Activities at the individual cadet level include drill and ceremony, inspections, and hands-on exercises in map reading, first aid, basic rifle marksmanship, and physical fitness. <br> NOTE: This course qualifies as a PE substitution course |

## COLLEGE READINESS ELECTIVES

| 265 COLLEGE TRANSITION N1290050 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Facilitate students' recognition of the value of education and the importance of becoming internally motivated to succeed in school. Motivate learners and workers who challenge themselves and strive for higher achievement. Prepares students for dual credit courses. |
| :---: | :---: | :---: |
| 181 COLLEGE READINESS AND STUDY SKILLS 03270100 | Semester <br> Grade 9-12 <br> Credit 5 <br> Weight 1.0 | Students acquire techniques for learning from texts, including studying word meanings, identifying, and relating key ideas, drawing, and supporting inferences, and reviewing study strategies. |
| 161 TSI PREP ELA <br> (Research/Technical Writing Course) <br> 03221100 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course develops students' mastery of the conventions of usage and the mechanics of written English while allowing students to compose and present persuasive and informative texts in order to prepare students to demonstrate college readiness on the TSI in ELAR |
| 137 ACADEMIC DECATHLON 85000xXX | Yearlong <br> Grade 9-12 <br> Local Credit 1 <br> No Weight | This course includes intensive study of topics in literature, economics, social science, math, science, Super Quiz, and the fine arts. Students develop skills in speech, interviewing and essay composition. The course culminates with the selection of a team of nine students to represent the campus in competition in ten areas of study. |
| 138 GIFTED-TALENTED INTERDISCIPLINARY STUDIES SEMINAR <br> N1290309 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | This course is based on the required Texas Performance Standards Project (TPSP) for gifted and talented (G/T) learners; it offers a non-traditional learning experience to students who have the ability to create innovative products and/or performances. Students will develop a product proposal, compile a portfolio, conduct in-depth research, be matched with a mentor from the professional community, and prepare for a public presentation of their portfolio, product, or performance at the end of the school year. An audience that includes expert(s) in the field will evaluate the product and/or performance. Students work with their mentor to create a related product with real-world application and tangible documentation. The final product will be shared with an audience outside the school setting. |

## OTHER ELECTIVES

| 35 ADMIN AIDE <br> 36 ATTENDANCE AIDE <br> 37 COUNSELING AIDE <br> 38 LIBRARY AIDE <br> 39 PE AIDE <br> 85000XXX | Semester <br> Grade11-12 <br> (Local Credit) <br> Credit 1 <br> No Weight | At Principal, or designees, discretion, a student who chooses this offering will be assigned to work as an office aide in attendance, student services, counseling, or administration. Placement in this course is dependent upon whether the student has met the state assessment requirements for graduation and is in good academic standing. Students are highly encouraged to enroll in courses that will help further prepare them for post- secondary opportunities. Administrative Approval is required. |
| :---: | :---: | :---: |
| 096 PEER ASSISTANCE AND LEADERSHIP (PAL) I N1290005 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The Peer Assistance and Leadership (PAL) courses are a peer helping program in which selected students are trained to work as peer facilitators with a younger student either on their own campus of from feeder middle or elementary schools. The kinds of assistance PAL students offer includes tutorial help, individual or group peer support, and discussion sessions. PAL students receive training in such areas as communication skills, listening skills, self-awareness, group dynamics, tutoring skills, helping strategies, and problem-solving and decision-making processes. |
| 097 PEERASSISTANCE AND LEADERSHIP (PAL) II N1290006 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The Peer Assistance and Leadership (PAL) courses are a peer helping program in which selected students are trained to work as peer facilitators with a younger student either on their own campus of from feeder middle or elementary schools. The kinds of assistance PAL students offer includes tutorial help, individual or group peer support, and discussion sessions. PAL students receive training in such areas as communication skills, listening skills, self-awareness, group dynamics, tutoring skills, helping strategies, and problem-solving and decision-making processes. |
| 133 TEEN LEADERSHIP (LEADWORTHYTHE COURSE) N12900012 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Leadworthy The Course is designed to develop personal responsibility, leadership, and professional skills through explicit social-emotional participatory learning experiences. The course provides students the opportunity to develop an awareness of personal image, a healthy self-concept, and healthy relationships. |
| 134 STUDENT LEADERSHIP N1290010 | Semester <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Student Leadership is a course for students who seek opportunities to expand and deepen their group and individual leadership skills to positively impact their own live and community. |

## DEPARTMENT OF SPECIAL EDUCATION

Note: These courses are designed for students who are receiving special education services and the selection of specific courses has been determined by the Admission, Review and Dismissal (ARD) Committee and outlined in their Individual Education Plan.

| $\begin{aligned} & 821 \text { ENGLISH I } \\ & 03220100 \end{aligned}$ | Yearlong <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, instruction is within the context of related reading, writing, speaking, and listening with appropriate skill development in composition, literature, language and reading. Care is taken to ensure a balance among components so that the student receives instruction in all areas. |
| :---: | :---: | :---: |
| $\begin{aligned} & \hline 822 \text { ENGLISH II } \\ & 03220200 \end{aligned}$ | Yearlong <br> Grade 10 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, instruction in this course includes a balance of reading, writing, speaking, and listening with appropriate skill development in composition, literature, grammar and use. |
| 823 ENGLISH III 03220300 | Yearlong <br> Grade 11 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, instruction includes a balance of reading, writing, speaking, and listening with appropriate skill development in composition, American literature, language usage and reading. |
| 824 ENGLISH IV 03220400 | Yearlong <br> Grade 12 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, instruction in this course includes a balance of reading, writing, speaking, and listening with appropriate skill development in composition, language, and reading. Literature pieces are chosen for their thematic connections and for real world relevance. |
| 825 READING I <br> 03270700 <br> 826 READING II 03270800 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 <br> Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 <br> Yearlong | As determined by an ARD Committee, Reading I, II, and III offer students reading instruction to successfully navigate academic demands and learn lifelong literacy skills. These courses are designed for students who are having considerable difficulty in reading. Students will learn study strategies, test-taking skills, the literacy processes necessary for handling a wide variety of texts, including school materials, work-related reading, and selfselected pleasure reading. Students eligible for this class include those who meet any of the following criteria: students who fail to pass the reading objectives of the STAAR 8th grade reading or EOC tests, fail two or more content subjects, or are designated as at-risk. This course is designed to teach reading as a critical life skill. |
| 827 READING III 03270900 | Grade 11-12 <br> Credit 1 <br> Weight 1.0 |  |

| 838 WORLD GEOGRAPHY |  |  |
| :--- | :--- | :--- |
| 03320100 | Yearlong | As determined by an ARD Committee, in World Geography <br> Studies, students examine people, places, and environments at <br> local, regional, national, and international scales from the spatial <br> Grade 9 <br> Credit $\mathbf{n} 1.0$ <br> influence of geography on events of the past and present with |
| Weight 1.0 | emphasis on contemporary issues. Emphasis is placed on <br> geographical process, which affect decisions concerning <br> interrelationships among nations, production, and distribution of |  |
| goods, uses and abuses of resources, movement and distribution |  |  |
| of goods, uses and abuses of resources, movement and |  |  |
| distribution of population, cultural impact on society, and political |  |  |
| and economic. |  |  |

| $\begin{aligned} & 830 \text { GEOMETRY } \\ & 03100700 \end{aligned}$ | Yearlong <br> Grade 10 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, in this course students will build on knowledge and skills from previous math courses to strengthen their mathematical reasoning and skills in geometric contexts. Concepts that will be covered in this course include coordinate and transformational geometry; logical argument and constructions; congruence, similarity, and trigonometry; two and three-dimensional figures; circles; and probability. Students will have access to a graphing calculator as appropriate during instruction in the classroom. Prerequisite: Algebral |
| :---: | :---: | :---: |
| $\begin{aligned} & \hline 831 \text { ALGEBRA II } \\ & 03100600 \end{aligned}$ | Yearlong Grade 11 Credit 1 Weight 1.0 | As determined by an ARD Committee, in Algebra II, students will broaden their knowledge of quadratic and exponential functions and systems of equations. Students will explore new functions including logarithmic, square root, cubic, cube root, absolute value, and rational functions. Students will extend their knowledge of data analysis, numeric, algebraic methods, and make connections to both mathematical and real-world situations. The use of a graphing calculator is considered an integral part of the course and will be used to build understanding, make connections between representations, and provide support in solving problems. Students will have access to a graphing calculator as appropriate during instruction in the classroom. <br> Prerequisite: Algebra I |
| $\begin{aligned} & 833 \text { MATH MODELS } \\ & 03102400 \end{aligned}$ | Yearlong <br> Grade 10-11 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, Mathematical Models with Applications provides a path for students to succeed in Algebra II and prepares them for various post-secondary choices. Students learn to apply mathematics through experiences in personal finance, science, engineering, fine arts, and social sciences. Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, model information, solve problems, and communicate solutions. The use of a graphing calculator is considered an integral part of the course and will be used to build understanding, make connections between representation, and provide support in solving problems. Students will have access to a graphing calculator as appropriate during instruction in the classroom. Prerequisite: Algebra I |
| $\begin{aligned} & \hline 834 \text { BIOLOGY } \\ & 03010200 \end{aligned}$ | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, In Biology, students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Biology study a variety of topics that include structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; biological evolution; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; and ecosystems and the environment. |
| 835INTEGRATED PHYSICS AND CHEMISTRY (IPC) 03060201 | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | As determined by an ARD Committee, in Integrated Physics and Chemistry, students conduct laboratory and field investigations, use scientific methods during investigation, and make informed decisions using critical-thinking and scientific problem-solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter. |

The courses also assist the students with developing and generalizing appropriate and beneficial social skills and in turn increases that student's postsecondary outcome Available for students in Resource and Behavior Academic Classrooms |
| 944 METHODOLOGY ACADEMIC AND PERSONAL SUCCESS (MAPS) N1130021 | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | The course focuses on the skills and strategies necessary for students to make a successful transition into high school and academic career. Students will explore the options available in high school, higher education, and the professional world in order to establish both immediate and long-range personal goals. The course emphasizes proactive problem-solving, selfdetermination, and independent thinking and learning skills. In addition, students will explore and experience collaboration as a tool for creative problem solving. As part of goal setting and leadership activities, students may complete an outside community service-learning experience in addition to class assignments. Available for students in Resource and Behavior Academic Classrooms |
| 951 LIFE SKILLS 1 85000DL1 952 LIFE SKILLS 2 85000DL2 953 LIFE SKILLS 3 85000DL3 954 LIFE SKILLS 4 85000DL4 955 LIFE SKILLS 5 85000DL5 956 LIFE SKILLS 6 85000DL6 957 LIFE SKILLS 7 85000DL7 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Local Credit <br> No Weight | This course is designed for students who require an alternate curriculum to teach functional skills. Students will learn about the importance of nutrition, health and safety, community participation and additional areas as specified in students' Individualized Education Program. |

| 987 CAREER EXPLORATION 3 85000XXX <br> 988 CAREER EXPLORATION 4 85000XXX |  | activities such as formal and informal presentations, resume writing and mock interviewing. Formal career planning and development of knowledge regarding transition planning begins in this course. |
| :---: | :---: | :---: |
| 961 OCCUPATIONAL PREPARATION 1 85000XXX | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Local Credit <br> No Weight | This course is designed to introduce students to the fundamental attitudes, behaviors, and habits needed to obtain, maintain and function in an occupation. Students will participate in schoolbased learning activities including work ethic development and job-seeking. |
| 983 WORK BASED LEARNING 1 85000XXX <br> 984 WORK BASED LEARNING 2 85000XXX | Yearlong <br> Grade 11-12 <br> Credit 2 <br> Local Credit <br> No weight | This course is designed to further develop skills needed to maintain and function in a work setting. Students will engage in educational experiences that integrate classroom learning (school-based) with structured work experiences in the community. Formal career planning and development of knowledge regarding transition planning continues in this course. Prerequisite: Career Exploration and Occupational Preparation |
| 950 ADULT YEARS PROGRAM 1 <br> (AYP 1) <br> 85000XXX <br> 958 ADULT YEARS PROGRAM 2 <br> (AYP 2) <br> 85000XXX <br> 969 ADULT YEARS <br> PROGRAM 3 <br> (AYP 3) <br> 85000XXX <br> 978 ADULT YEARS <br> PROGRAM 4 <br> (AYP 4) <br> 85000XXX | Yearlong <br> Grade 12 Credit 1 Local Credit No Weight | This course is designed for students who have completed all required credits for graduation and state assessment requirements. This course addresses Transition Services for adult students who show the educational need for additional employability and self-help skills directly related to preparation for employment, including general skills necessary to obtain and/or retain competitive, supported or sheltered employment. The purpose of this program is to provide intensive transition experiences and training in real-life settings to provide preparation for their postsecondary goal. An important feature of this program is that the students are not participating in a traditional high school schedule; instead, programing is based on preparation for their postsecondary goal. <br> Prerequisite: Completion of High School credits. |

## ENDORSEMENTS \& PROGRAMS OF STUDY

Texas high school students have greater flexibility and choice in their high school course selections. Each student is required to complete the basic courses called the foundation requirements. In addition, students now choose specialized coursework to earn an endorsement.

The five endorsements are: Multidisciplinary Studies, Arts \& Humanities, Business\& Industry, Public Service, and STEM (Science, Technology, Engineering, and Mathematics). Students can choose an endorsement by completing requirements for the endorsement including 4 credits in both math and science and 2 additional elective credits. There are several programs of study available under the 5 endorsements that students can choose from. These programs of study are organized into "career clusters." Students may also earn a Distinguished Level of Achievement Designation and a Performance Acknowledgement.

## Campus Key

# Career \& Technical Education 

## High School Program Guide

2024-2025

## CAREER \& TECHNICAL EDUCATION DEPARTMENT

Career and Technical Education (CTE) prepares students for post-secondary education and a globally competitive workforce through rigorous and relevant academic, technical, career and character education programs. Career and Technical Education programs offer a sequence of courses that provides students with coherent content that is aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions. Why are CTE programs a great option for secondary students? CTE educates students for a range of career options through 12 career clusters and 23 programs of study at JISD. CTE features high school and postsecondary partnerships, enabling clear pathways to certifications and degrees. CTE fulfills employer needs that are high skill, high wage, and in high demand. CTE prepares student to be college and career-ready by providing core academic skills, employability skills, and technical job-specific skills. Students in these programs have opportunities to participate in internships or job shadowing experiences and acquire industry-based certifications.

## CERTIFICATION/LICENSE PREPARATION PROGRAMS

Industry-based certifications are important components of Career \& Technical Education programs and are gaining importance in the business world as evidence of skill attainment; hundreds of certifications are available, and more are introduced each year. Earning a certification has many benefits; it gives students a sense of accomplishment by obtaining a highly valued professional credential and helps make them more employable with higher starting salaries.

Judson ISD has aligned numerous programs of study with industry certifications and licenses, thereby providing students with opportunities to earn nationally recognized, industry current credentials. These certifications and licenses are identified within each program of study. Information on the certifications/Licenses in the programs are available in each respective high school Career Center.

## Agriculture, Food \& Natural Resources

## ANIMAL SCIENCE

## Judson High School

| T101 PRINCIPLES OF AGRICULTURE, FOOD, \&NATURAL RESOURCES 13000200 | Yearlong <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations. |
| :---: | :---: | :---: |
| T110 SMALL ANIMAL MANAGEMENT 13000400 | Semester <br> Level 2 <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.0 | Small Animal Management, students will acquire knowledge and skills related to small animals and the small animal management industry. Small Animal Management may address topics related to small mammals such as dogs and cats, amphibians, reptiles, and birds. <br> Recommended Prerequisite: Principles of Agriculture, Food, and Natural Resources |
| T113 EQUINE SCIENCE 13000500 | Semester <br> Level 2 <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.0 | In Equine Science students will acquire knowledge and skills related to equine animal systems and the quine industry. Equine Science may address topics related to horses, donkeys and mules. <br> Recommended Prerequisite: Principles of Agriculture, Food and Natural Resources |
| T111 VETERINARY MEDICAL APPLICATIONS/LAB $13000610$ | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Veterinary Medical Applications covers topics relating to veterinary practices, including practices for large and small animal species. <br> Prerequisite: Small Animal Management, or Livestock Production. |
| $\begin{aligned} & \text { T109 ADVANCEDANIMAL } \\ & \text { SCIENCE } \\ & 13000700 \end{aligned}$ | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Advanced Animal Science examines the interrelatedness of human scientific technological dimensions livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences. <br> Prerequisite: Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and either, Small Animal Management, or Livestock Production. |
| T137 PRACTICUM OF AFNR ANIMAL SCIENCE $13002505$ | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 3 <br> Weight 1.0 | This course is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. Prerequisite: Vet Med Applications |
| T138 PRACTICUM OF AFNR ANIMAL SCIENCE <br> (2 ${ }^{\text {nd }}$ time taken) $13002515$ | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 3 <br> Weight 1.0 | This course is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences. The practicum course is a paid or unpaid capstone experience. <br> Prerequisite: T137 Practicum of AFNR |

## Judson High School

| T101 PRINCIPLES OF AGRICULTURE,FOOD, \& NATURAL RESOURCES 13000200 | Yearlong <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations. |
| :---: | :---: | :---: |
| T121 GREENHOUSE OPERATIONS $13002050$ | Yearlong <br> Level 2 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Greenhouse Operations is designed to develop an understanding of greenhouse production techniques and practices. To prepare for careers in horticultural systems, students must attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry. <br> Recommended Prerequisite: Principles of Agriculture, Food and Natural Resources |
| T122 HORTICULTURE SCIENCE/LAB <br> 13002010 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Horticultural Science is designed to develop an understanding of common horticultural management practices as they relate to food and ornamental plant production. To prepare for careers in horticultural systems, students must attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry. <br> Recommended Prerequisite: Greenhouse Operations |
| T134 PRACTICUM AFNR PLANT SCIENCE 13002500 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | This course is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. <br> Prerequisite: two or more courses from the Plant Science Program of Study. |

## Judson High School

| T101 PRINCIPLES OF AGRICULTURE, FOOD, \& NATURAL RESOURCES 13000200 | Yearlong <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations. |
| :---: | :---: | :---: |
| T121 GREENHOUSE OPERATIONS 13002050 | Yearlong <br> Level 2 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Greenhouse Operations is designed to develop an understanding of greenhouse production techniques and practices. To prepare for careers in horticultural systems, students must attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry. <br> Recommended Prerequisite: Principles of Agriculture, Food and Natural Resources |
| $\begin{aligned} & \text { T119FLORAL DESIGN } \\ & 13001800 \end{aligned}$ | Yearlong <br> Level 3 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Floral Design is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. <br> Note: This course satisfies a fine arts credit requirement for students on the Foundation High School Program. |
| T118 ADVANCED FLORAL DESIGN <br> N1300270 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | In Advanced Floral Design, students build on knowledge from the Floral Design course with an emphasis on specialty designs and occasion planning. Through the analysis and evaluation of various occasion and event types, students explore design needs and client expectations. In addition, students learn the importance of budgetary adherence and entrepreneurship as well as the foundation skills needed to effectively run a small business. Prerequisite: Floral Design |
| T134 PRACTICUM AFNRPLANT SCIENCE 13002500 | Yearlong <br> Level4 <br> Grade 11-12 <br> Credit 4 <br> Weight 1.0 | This course is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. The practicum course is a paid or unpaid capstone experience. Prerequisite: two or more courses from the Plant Science Program of Study. |

## Judson High School

| T101 PRINCIPLES OF AGRICULTURE,FOOD AND NATURAL RESOURCES 13000200 | Yearlong <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations. |
| :---: | :---: | :---: |
| T133AGRICULTURAL MECHANICS AND METAL <br> TECHNOLOGIES 13002200 | Yearlong <br> Level 2 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Agricultural Mechanics and Metal Technologies is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. |
| T132AGRICULTURAL STRUCTURES DESIGN AND FABRICATION 13002300 | Yearlong <br> Level 3 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In Agricultural Structures Design and Fabrication, students will explore career opportunities, entry requirements, and industry expectations. To prepare for careers in mechanized agriculture and technical systems, students must attain knowledge and skills related to agricultural structures design and fabrication. <br> Recommended Prerequisites: Agricultural Mechanics and Metal Technologies |
| T103 AGRICULTURAL EQUIPMENT DESIGN \& FABRICATION/LAB 13002360 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | In Agricultural Equipment Design and Fabrication, students will acquire knowledge and skills related to the design and fabrication of agricultural equipment. To prepare for careers in mechanized agriculture and technical systems, students must attain knowledge and skills related to agricultural equipment design and fabrication. <br> Recommended Prerequisites: Agricultural Structures Design and Fabrication |
| T130 AGRICULTURAL POWER SYSTEMS/LAB 13002400 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Students will develop an understanding of energy sources, small and large power systems and agricultural machinery. They will acquire technical knowledge and skills related to power, structural and technical agricultural systems in the workplace. In addition, they will gain knowledge of industry certifications and expectations. <br> Recommended Prerequisites: Agricultural Structures Design and Fabrication |
| T136 PRACTICUM AFNR MECHANICAL SYSTEMS 13002500 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight <br> 1.0 | This course is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. The practicum course is a paid or unpaid capstone experience. Prerequisite: two or more courses from the Applied Agricultural Engineering Program of Study. |

## Arts, Audio/Video Technology \& Communications

## GRAPHIC DESIGN \& INTERACTIVE MEDIA ANIMATION

## Judson High School

| T330 PRINCIPLES OF ARTS, AUDIO/VIDEO TECHNOLOGY \& COMMUNICATION 13008200 | Yearlong <br> Level 1 <br> Grads 9-10 <br> Credit 1 <br> Weight 1.0 | In this course, students will be introduced to the context of arts, audio/video technology and communication systems. They will learn of the various career opportunities in this cluster and the knowledge, skills, and education requirements for those opportunities |
| :---: | :---: | :---: |
| T322 ANIMATION I 13008300 | Yearlong <br> Level 2 <br> Grads 9-10 <br> Credit 1 <br> Weight 1.0 | Careers in animation span all aspects of motion graphics. In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the history and techniques of the animation industry. <br> Prerequisite: Principles of Arts/AV or Digital Media |
| T329 ANIMATION II/LAB 13008410 | Yearlong <br> Level 3 <br> Grades 10-11 <br> Credit 2 <br> Weight 1.0 | Students will be expected to create two-and three-dimensional animations. The instruction also assists students seeking careers in the animation industry. They will build on skills previously learned to create original animation projects. In addition, they will use a variety of hardware and software to collaborate and create projects and presentations. Prerequisite: Animation I |
| T331 PRACTICUMIN ANIMATION 13008450 | Yearlong <br> Level 4 <br> Grads 11-12 <br> Credit 2 <br> Weigh 1.0 | Careers in animation span all aspects of motion graphics. Students will an increasing understanding of the industry with a focus on applying pre-production, production, and postproduction animation principles in a professional environment Prerequisite: Animation II/Lab |

# GRAPHIC DESIGN \& INTERACTIVE MEDIA GRAPHIC DESIGN 

## Judson High School - Wagner High School - Veterans Memorial High School

| T330 PRINCIPLES OF ARTS, AUDIO/VIDEO TECHNOLOGY \& COMMUNICATION 13008200 <br> JHS ONLY | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | In this course, students will be introduced to the context of arts, audio/video technology and communication systems. They will learn of the various career opportunities in this cluster and the knowledge, skills, and education requirements for those opportunities. |
| :---: | :---: | :---: |
| T328DIGITAL MEDIA 13027800 <br> WHS \& VMHS ONLY | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | In Digital Media, students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem. Students will enhance reading, writing, computing, communication, and critical thinking and apply them to the IT environment. <br> Prerequisite: Principles of Arts/AV or Digital Media |
| T324GRAPHICDESIGN \& ILLUSTRATION I 13008800 | Yearlong <br> Level 2 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Careers in graphic design and illustration span all aspects of the advertising and visual communications industries. Within this context, in addition to developing knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on fundamental elements and principles of visual art and design. |
| T327 GRAPHIC DESIGN \& ILLUSTRATION II/ LAB 13008910 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Careers in graphic design and illustration span all aspects of the advertising and visual communications industries. Students will develop advanced technical knowledge and skills in visual art and design using a variety of hardware and software. In addition, they will create and present projects and work collaboratively to design for specific clients. <br> Prerequisite: Graphic Design and Illustration I |
| T326 PRACTICUM IN GRAPHIC DESIGN \& ILLUSTRATION 13009000 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Careers in graphic design and illustration span all aspects of the advertising and visual communications industries. In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop a technical understanding of the industry with a focus on skill proficiency. Prerequisite: Graphic Design and IIlustration II |

# GRAPHIC DESIGN \& INTERACTIVE MEDIA VIDEO GAME DESIGN 

## Judson High School

| T330 PRINCIPLES OF ARTS, AUDIO/VIDEO TECHNOLOGY \& COMMUNICATION 13008200 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | In this course, students will be introduced to the context of arts, audio/video technology and communication systems. They will learn of the various career opportunities in this cluster and the knowledge, skills, and education requirements for those opportunities |
| :---: | :---: | :---: |
| T332 VIDEO GAME DESIGN 13009970 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Video Game Design will allow students to explore one of the largest industries in the global marketplace and the new emerging careers it provides in the field of technology. Students will learn gaming, computerized gaming, evolution of gaming, artistic aspects of perspective, design, animation, technical concepts of collision theory, and programming logic. Students will participate in a simulation of a real video game design team while developing technical proficiency in constructing an original game design. |
| T334 VIDEO GAME PROGRAMMING N1300994 | Yearlong <br> Level 2 <br> Grade 10-11 <br> Credit 1 <br> Weight 1.0 | Video Game Programming expands on the foundation created in Video Game Design through programming languages such as: C\# programming, XNA game studio, Java, and Android App. In this course, students will investigate the inner workings of a fully functional role-playing game (RPG) by customizing playable characters, items, maps, and chests and eventually applying customizations by altering and enhancing the core game code. Prerequisite: Video Game Design |
| $\begin{aligned} & \text { T333 ADVANCED VIDEO } \\ & \text { GAME PRODUCTION } \\ & \text { N1300995 } \end{aligned}$ | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Students will be introduced to mobile application design and programming using Eclipse for Android devices. Students will learn basic Java programming and working with Android Studio to develop real working apps. <br> Prerequisite: Video Game Programming |

## Judson High School

| T330 PRINCIPLESOF ARTS, AUDIO/VIDEO TECHNOLOGY \& COMMUNICATION 13008200 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | In this course, students will be introduced to the context of arts, audio/video technology and communication systems. They will learn of the various career opportunities in this cluster and the knowledge, skills, and education requirements for those opportunities. |
| :---: | :---: | :---: |
| T853AUDIO/VIDEO PRODUCTION I 13008500 | Yearlong <br> Level 2 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on preproduction, production, and post-production audio and video products. In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on preproduction, production, and post-production audio and video products. <br> Prerequisite: Principles of Arts/AV or Digital Media |
| T338 AUDIO/VIDEO PRODUCTIONII/LAB 13008610 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on preproduction, production, and post-production audio and video products. Requiring a lab requisite for the course affords necessary time devoted specifically to the production and postproduction process. <br> Prerequisite: Audio/Video Production I |
| T855 PRACTICUMIN AUDIO/VIDEO <br> PRODUCTION <br> 13008700 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Building upon the concepts taught in Audio/Video Production II and its co-requisite Audio/Video Production II Lab, in addition to developing advanced technical knowledge and skills needed success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an increasing understanding of the industry with a focus on applying pre-production, production, and post-production audio and video products in a professional environment. This course may be implemented in an advanced audio/video or audio format. Instruction may be delivered through lab-based classroom experiences or career preparation opportunities. Prerequisite: Audio/Video Production II/Lab |

## Business, Marketing \& Finance

## BUSINESS MANAGEMENT

## Judson High School-Wagner High School-Veterans Memorial High School

| academic knowledge and skills to a variety of settings in |  |  |
| business, marketing, and finance. |  |  |

## Judson High School-Wagner High School-Veterans Memorial High School

| T200 PRINCIPLES OF BUSINESS, MARKETING, \& FINANCE $13011200$ | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | In Principles of Business, Marketing, and Finance, students gain knowledge and skills in economies and private enterprise systems, the impact of global business, the marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. |
| :---: | :---: | :---: |
| T808 SPORTS AND ENTERTAINMENT MARKETING 13034600 | Semester <br> Level 2 <br> Grade 10-12 <br> Credit 5 <br> Weight 1.0 | Sports and Entertainment Marketing will provide students with a thorough understanding of the marketing concepts and theories that apply to sports and entertainment. The areas this course will cover include basic marketing concepts, publicity, sponsorship, endorsements, licensing, branding, event marketing, promotions, and sports and entertainment marketing strategies |
| T809 SPORTS AND ENTERTAINMENT MARKETING II 13034600 | Semester <br> Level 3 <br> Grade 10-12 <br> Credit . 5 <br> Weight 1.0 | Sports and Entertainment Marketing II is an advanced course designed to build upon students' prior knowledge of sports and entertainment marketing. Students will develop a thorough understanding of advanced marketing concepts and theories as they relate to the sports and entertainment industries. <br> Prerequisite: Sports \& Entertainment Marketing I |
| T813 INTRODUCTION TO EVENT AND MEDIA PLANNING N1302269 | Yearlong <br> Level 3 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Students will gain a comprehensive understanding of the fundamentals of the meetings, conventions, events and exposition industries. They will review the roles of the organizations and people involved in the businesses that comprise the Meetings, Events, Expositions and Convention (MEEC) industry. |
| T812 FUNDAMENTALS OF REAL ESTATE N1301120 (WHS ONLY) | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Sports and Entertainment Marketing II is an advanced course designed to build upon students' prior knowledge of sports and entertainment marketing. Students will develop a thorough understanding of advanced marketing concepts and theories as they relate to the sports and entertainment industries. <br> Prerequisite: Sports \& Entertainment Marketing I |
| T805 ADVANCED MARKETING 13034700 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Students will gain knowledge and skills that help them become proficient in multiple areas of marketing including use of program including the importance of emerging trends and technologies, professional communication and customer-service skills. They will develop and understanding of the roles of management, the need for continuing professional and career development as well as the components of the marketing research process. |
| T810 PRACTICUM OF ENTREPRENEURSHIP MARKETING N1303425 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest. |

## TEACHING \& TRAINING

## Judson High School-Wagner High School-Veterans Memorial High School

| Credit 1 |  |  |
| Careers within the Education and Training Career Cluster. |  |  |
| Students will develop a graduation plan that leads to a specific |  |  |
| career choice in the student's interest area. |  |  |$|$

## ENGINEERING FOUNDATIONS

## Wagner High School

| T901 PRINCIPLES OF APPLIED ENGINEERING 13036200 | Yearlong <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weigh 1.0 | Students will develop engineering skills which include computer graphics, modeling and presentations using a variety of hardware and software applications to complete assignments and projects. Students will work on a design team to develop a product or a system using the design process and prototype development, planning, executing, monitoring, controlling and closing a project. |
| :---: | :---: | :---: |
| T902 MANUFACTURING ENGINEERING TECHNOLOGY 1 13032900 | Yearlong <br> Level 2 <br> Grade 10-11 <br> Credit 1 <br> Weight 1.0 | Students will gain knowledge and skills in the application, design, production and assessment of products, services and engineering systems. The study of manufacturing engineering will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of activities problems and settings, preparing for success in the global economy. Prerequisites: Algebra I |
| T921 ENGINEERING SCIENCE <br> 13037500 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1 | Advanced math and science problem solving skills are used in various design applications throughout this course. Computer integrated manufacturing utilizes the principals developed in introduction to engineering design. Students use automation, control systems sensing devices, computer programming and robotics to produce products. The course emphasizes trouble shooting and design efficiency. <br> Prerequisites: Algebra I, Biology, and one credit in STEM |
| T919 AEROSPACE ENGINEERING N1303745 (PLTW) | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Advanced math and science problem solving skills are used in various design applications throughout this course. This course propels students' learning in the fundamentals of atmospheric and space flight. As they explore the physics of flight, students bring concepts to life by designing an airfoil, propulsion system and rockets. They learn basic orbital mechanics using industrystandard software. They also explore robot systems through projects such as remotely operated vehicles. |
| T914 PRACTICUM IN SCIENCE, TECHNOLOGY, ENGINEERING \& MATHEMATICS 13037400 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The course is designed to give students supervised practica application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience Prerequisites: Algebra I \& Geometry |

# DIAGNOSTIC AND THERAPEUTIC SERVICES PATIENT CARE TECHNICIAN CERTIFIED CLINICAL MEDICAL ASSISTANT 

## Judson High School

| T601 PRINCIPLES OF THERAPEUTIC HEALTHCARE N1302110 | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Principles of Therapeutic Health Care will provide students with an overview of the knowledge, skills and abilities associated with careers within the therapeutic pathway of the health care industry. These careers include direct patient care jobs, rehabilitation and jobs caring for individuals with physical and developmental delays. |
| :---: | :---: | :---: |
| T604 MEDICAL TERMINOLOGY 13020300 | Yearlong <br> Grade10-11 <br> Credit 1 <br> Weight 1.0 | The Medical Terminology course is designed to forms, and medical abbreviations. The course allows students to achieve comprehension of medical vocabulary appropriate to medical procedures, human anatomy and physiology, and pathophysiology. |
| T615HEALTH SCIENCE THEORY $13020400$ | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. Prerequisites: Principles of Health Science and Biology |
| T405ANATOMY\& PHYSIOLOGY 13020600 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. <br> Prerequisite: Biology and a second science credit. |
| $\begin{aligned} & \text { T404 PATHOPHYSIOLOGY } \\ & 13020800 \end{aligned}$ | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | The Pathophysiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology will study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology. Students should know that some questions are outside the realm of science because they deal with phenomena that are not scientifically testable. <br> Prerequisite: Biology and Chemistry. |
| T602 PRACTICUM IN HEALTH SCIENCE - PATIENT CARE (PCT) TECHNICIAN 13020505 | Yearlong <br> Grade 12 <br> Credit 3 <br> Weight 1.0 | The Practicum in Health Science courses are designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. This practicum leads to an industry-based certification student can acquire as part of the course. Students are encouraged to participate in extended learning experiences such as career and |

|  |  | technical student organizations and other leadership or extracurricular organizations <br> Prerequisite: Principles of Health Science, Health Science Theory, and Biology. <br> Basic Information: PCTs play a vital role in patient care in hospitals, doctor's offices, nursing homes, or long-term care facilities. Students will have opportunities to work alongside with nurses. Duties include drawing blood, takin vitals, performing $C P R$, and much more. |
| :---: | :---: | :---: |
| T616 PRACTICUM IN HEALTH SCIENCECERTIFIED CLINICAL MEDICALASSISTANT 13020505 | Yearlong <br> Grade 12 <br> Credit 3 <br> Weight 1.0 | The Practicum in Health Science courses are designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. This practicum leads to an industry- based certification students can acquire as part of the course. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Prerequisite: Principles of Health Science, Medical Terminology, Health Theory, and Biology. <br> Basic Information: CCMAs take care of patient needs and carry out any orders the doctors may have. Their duties include taking vital signs, drawing blood, and administering medication. |

## Judson High School

| T601 PRINCIPLES OF THERAPEUTIC HEALTHCARE N1302110 | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Principles of Therapeutic Health Care will provide students with an overview of the knowledge, skills and abilities associated with careers within the therapeutic pathway of the health care industry. These careers include direct patient care jobs, rehabilitation and jobs caring for individuals with physical and developmental delays |
| :---: | :---: | :---: |
| T604 MEDICAL TERMINOLOGY 13020300 | Yearlong <br> Grade10-11 <br> Credit 1 <br> Weight 1.0 | The Medical Terminology course is designed to forms, and medical abbreviations. The course allows students to achieve comprehension of medical vocabulary appropriate to medical procedures, human anatomy and physiology, and pathophysiology. |
| T609 HEALTH SCIENCE THEORY/CLINICAL DENTAL 13020410 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. Prerequisite: Biology |
| T405ANATOMY \& PHYSIOLOGY 13020600 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Prerequisite: Biology and a second science credit. |
| T608 PRACTICUMIN HEALTH SCIENCE/ DENTALASSISTANT (1ST YEAR) 13020500 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The Practicum in Health Science course is designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Prerequisite: Health Science Theory and Biology. |
| T603 PRACTICUM IN HEALTH SCIENCE DENTAL ASSISTANT (2ND YEAR) 13020515 | Yearlong <br> Level 4 <br> Grade 12 <br> Credit 3 <br> Weight 1.0 | The Practicum in Health Science course is designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Prerequisite: Health Science Theory, Biology, and T608 Practicum $1^{\text {st }}$ year |

## Wagner High School

| T924 PRINCIPLES OF BIOMEDICAL SCIENCE N1302092 (PLTW) | Yearlong <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weight 1.0 | Students explore concepts of biology and medicine to determine factors that may have resulted in the death of a fictional person. They examine autopsy reports, medical history and medical treatments that may have prevented death. Through projects and activities, students are introduced to human physiology, basic biology, medicine and research processes while designing their own experiments to solve problems. |
| :---: | :---: | :---: |
| T925 HUMAN BODY SYSTEMS <br> N1302093 (PLTW) | Yearlong Level 2 Grade 10-11 Credit 1 Weight 1.0 | Students examine the interactions of human body systems as they explore identity, power, movement, protection and homeostasis in the body. They build organs and tissues on a skeletal mannequin, use data acquisition software to monitor body functions and take on the roles of biomedical professionals to solve real-world medical cases. <br> Prerequisite: Principles of Biomedical Science |
| T926 MEDICAL INTERVENTIONS N1302094 (PLTW) | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Through real-world cases, students are exposed to a range of interventions related to immunology, surgery, genetics, pharmacology, medical devices, and diagnostics. <br> Prerequisite: Human Body Systems |
| T405 ANATOMY \& PHYSIOLOGY 13020600 | Yearlong Level 3 Grade 11-12 Credit 1 Weight 1.0 | The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Prerequisite: Biology and a second science credit. |
| T927 BIOMEDICAL INNOVATION N1302095 (PLTW) | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | In the final course of the PLTW Biomedical Science sequence, students build on the knowledge and skills gained from previous courses to design innovative solutions for the most pressing health challenges of the $21^{\text {st }}$ century. Students address topics ranging from public health and biomedical engineering to clinical medicine and physiology. <br> Prerequisite: Medical Interventions |

## CULINARY ARTS

## Human Services

## COSMETOLOGY

## Veterans Memorial High School

| T544INTRODUCTION TO COSMETOLOGY 13025100 | Year long <br> Level 1 <br> Grade 9 <br> Credit 1 <br> Weight 1. | Introduction to Cosmetology is a second-year course where theory and hands on activities will be practiced in hair care, skin care, and nail care. Cosmetology Sciences associated with bacteriology, sanitation and public safety are practiced according to the Texas Department of Licensing and Regulation (TDLR) requirements. In this course, students begin the transition from manikin work to servicing clients in a salon setting using professional business practices. <br> (A fee to apply for a permit with TDLR is required) |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { T545COSMETOLOGYI } \\ & 13025200 \end{aligned}$ | Yearlong <br> Level 2 <br> Grade 10 <br> Credit 2 <br> Weight 1.0 | Cosmetology I is where students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included. Advanced practices in haircutting and hairstyling followed by color formulations and permanent waving. Continued practice with technical skills preparing students for the trending beauty industry. <br> Prerequisite: Principles of Cosmetology and Design and Color Theory. |
| $\begin{aligned} & \text { T543 COSMETOLOGY II } \\ & 13025300 \end{aligned}$ | Yearlong <br> Level 3 <br> Grade 11 <br> Credit 2 <br> Weight 1.0 | In Cosmetology II is the final course where students will demonstrate proficiency in academic, technical, and practical knowledge and skills. Instruction includes advanced training in professional standards/employability skills; TDLR rules and regulations; use of tools, equipment, technologies, and materials; and practical skills. Clocked hours will continue while students practice advanced development in hair coloring, chemical textures, and haircutting. Students will provide cosmetology services to clients in a full-service salon setting. Salon business practice, cosmetology career planning will assist students with job placement and Texas Cosmetology State Exam preparation. <br> Prerequisite: Cosmetology I |
| T548 PRACTICUM IN HUMAN SERVICES $13025000$ | Yearlong <br> Level 4 <br> Grade 12 <br> Credit 2 <br> Weight 1.0 | The final course where students will demonstrate proficiency in academic, technical, and practical knowledge and skills. The content is designed to provide the occupational skills required for licensure. Instruction includes advanced training in professional standards/employability skills; TDLR rules and regulations; use of tools, equipment, technologies, and materials; and practical skills. Clocked hours will continue while students practice advanced development in hair coloring, chemical textures, and haircutting. Students will provide cosmetology services to clients in a full-service salon setting. Salon business practice, cosmetology career planning will assist students with job placement and Texas Cosmetology State Exam preparation. Prerequisite: Cosmetology II |

## FAMILY \& COMMUNITY SERVICES

## Judson High School

| T501 PRINCIPLES OF COMMUNITY SERVICE N1302542 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | This course will introduce high school students to the field of nonprofits/community service, as well as explore career options that assist individuals and families in need. The students will work to understand policies, design community service plans, and develop a portfolio of different community and state resources. |
| :---: | :---: | :---: |
| T513HUMAN GROWTH \& DEVELOPMENT <br> 13014300 | Yearlong <br> Level 2 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Human Growth and Development is an examination of human development across the lifespan with emphasis on research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material that is generally taught in a postsecondary, oneterm introductory course in developmental psychology or human development. |
| T504 FAMILY \& COMMUNITY SERVICES <br> 13024800 | Yearlong <br> Level 3 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Family and Community Services is a laboratory-based course designed to involve students in realistic and meaningful community-based activities through direct service or servicelearning experiences. Students are provided opportunities to interact with and provide services to individuals, families, and the community through community or volunteer services. Emphasis is placed on developing and enhancing organizational and leadership skills and characteristics |
| T516 PRACTICUM IN HUMAN SERVICES <br> 13025000 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Practicum in Human Services provides background knowledge and occupation- specific training that focuses on the development of consumer services, early childhood development and services, counseling and mental health services, and family and community-services careers. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Prerequisite: Family \& Community Services |

Critical thinking, IT experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid or paid internship, as part of a capstone project, or as career preparation. <br> Prerequisites: A minimum of two high school information technology courses. |

## Law \& Public Service

## LAW ENFORCEMENT

## Judson High School-Wagner High School-Veterans Memorial High School

| T489 PRINCIPLES OF LAW, PUBLIC SAFETY, CORRECTIONS \& SECURITY 13029200 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Principles of Law, Public Safety, Corrections, and Security introduces students to professions in law enforcement, protective services, corrections, firefighting, and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, protective services, and corrections. |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { T485 LAW ENFORCEMENT I } \\ & 13029300 \end{aligned}$ | Yearlong <br> Level 2 <br> Grade 10-11 <br> Credit 1 <br> Weight 1.0 | Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. Students will understand the role of constitutional law at local, state, and federal levels; the U.S. legal system; criminal law; and law enforcement terminology and the classification and elements of crime. <br> Recommended Prerequisite: Principles of Law, Public Safety, Corrections, and Security |
| T487 LAW ENFORCEMENT II 13029400 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Law Enforcement II provides the knowledge and skills necessary to prepare for a career in law enforcement. Students will understand ethical and legal responsibilities, patrol procedures, first responder roles, telecommunications, emergency equipment operations, and courtroom testimony. <br> Prerequisite: Law Enforcement I |
| T480CORRECTIONALSERVICES 13029700 | Yearlong <br> Level 3 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | In Correctional Services, students prepare for certification required for employment as a municipal, county, state, or federal correctional officer. Students will learn the role and responsibilities of a county or municipal correctional officer; discuss relevant rules, regulations, and laws of municipal, county, state, or federal facilities; and discuss defensive tactics, restraint techniques, and first aid procedures as used in the municipal, county, state, or federal correctional setting. Recommended Prerequisite: Law Enforcement I |
| T491 FORENSIC SCIENCE 13029500 | Yearlong <br> Level 4 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Prerequisites: Biology \& Chemistry |
| T495 PRACTICUM IN LAW, PUBLIC SAFETY CORRECTIONS, AND SECURITY 13030100 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The practicum course is designed to give students supervised practical application of previously studied knowledge and skills in law, public safety, corrections, and security. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Recommended prerequisite: Law Enforcement II or Correctional Services |

## LEGALSTUDIES

## Veterans Memorial High School

| T489 PRINCIPLESOF LAW, PUBLIC SAFETY, CORRECTIONS \& SECURITY 13029200 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Principles of Law, Public Safety, Corrections, and Security introduces students to professions in law enforcement, protective services, corrections, firefighting, and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, protective services, and corrections. |
| :---: | :---: | :---: |
| T493COURT SYSTEMS \& PRACTICES <br> 13029600 | Yearlong <br> Level 2 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and Interrogation. <br> Recommended prerequisite: Principles of Law, Public Safety, Corrections \& Security |
| $\begin{aligned} & \text { T213 BUSINESS LAW } \\ & 13011700 \end{aligned}$ | Yearlong <br> Level 2 <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Business Law is designed for students to analyze various aspects of the legal environment, including ethics, the judicial system, contracts, personal property, sales, negotiable instruments, agency and employment, business organization, risk management, and real property. |
| T490 ADVANCED LEGAL SKILLS \& PROFESSIONS N1303016 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Advanced Legal Skills and Professions provides students with a foundation to understand the basic mechanics of the U.S. legal system. Building on prior instruction in constitutional issues and the basics of American court systems, this course provides insight into the practical application of the law, as well as civil and criminal procedure, giving students a hands-on opportunity to experience a variety of legal professions. Prerequisite: Court Systems \& Practices |
| T499 LEGAL RESEARCH \& WRITING <br> N1303014 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | Legal Research and Writing provides an introduction into the study and practice of legal writing and research. This course is designed to introduce students to the methods and tools used to conduct legal research, develop and frame legal arguments, produce legal writings such as briefs, memorandums, and other legal documents. <br> Prerequisite: Court Systems \& Practices |
| T496 PRACTICUM IN LAW, PUBLIC SAFETY, <br> CORRECTIONS \& SECURITY <br> LEGAL STUDIES <br> 13030100 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The practicum course is designed to give students supervised practical application of previously studied knowledge and skills in law, public safety, corrections, and security. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Prerequisite: Advanced Legal Skills and Professions |

## MANUFACTURING

## WELDING

## Wagner High School

| $\begin{aligned} & \text { T727 INTRODUCTIONTO } \\ & \text { WELDING } \\ & 13032250 \end{aligned}$ | Yearlong <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Introduction to Welding will introduce welding technology with an emphasis on basic welding laboratory principles and operating procedures. Students will be introduced to the three basic welding processes. Topics include safety, hand tool and power machine use, measurement, laboratory operating procedures, welding power sources, welding career potentials, and introduction to welding codes and standards. |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { T712 WELDING I } \\ & 13032300 \end{aligned}$ | Yearlong <br> Grade 10-11 <br> Credit 2 <br> Weight 1.0 | Welding I provide the knowledge, skills, and technologies required for employment in metal technology systems. Students will develop knowledge and skills related to this system and apply them to personal career development. This course supports integration of academic and technical knowledge and skills. Students will reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Knowledge about career opportunities, requirements, and expectations and the development of workplace skills prepare students for future success <br> Prerequisite: Introduction to Welding. |
| $\begin{aligned} & \text { T713 WELDING II } \\ & 13032400 \end{aligned}$ | Yearlong <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Welding II builds on the knowledge and skills developed in Welding I. Students will develop advanced welding concepts and skills as related to personal and career development. Students will integrate academic and technical knowledge and skills. Students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Prerequisite: Welding I |
| T718 PRACTICUM IN MANUFACTURING 13033000 | Yearlong <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The Practicum in Manufacturing course is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Prerequisite: Welding II |

## Wagner High School

| T901 PRINCIPLES OF APPLIED ENGINEERING $13036200$ | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Students will develop engineering skills which include computer graphics, modeling and presentations using a variety of hardware and software applications to complete assignments and projects. Students will work on a design team to develop a product or a system using the design process and prototype development, planning, executing, monitoring, controlling and closing a project. |
| :---: | :---: | :---: |
| T902 MANUFACUTIRNG ENGINEERING TECHNOLOGYI 13032900 | Yearlong <br> Level 2 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Students will gain knowledge and skills in the application, design, production and assessment of products, services and engineering systems. The study of manufacturing engineering will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of activities problems and settings, preparing for success in the global economy. Prerequisites: Algebra I |
| T915 ROBOTICS I 13037000 | Yearlong <br> Level 2 <br> Grade 10-11 <br> Credit 1 <br> Weight 1.0 | In Robotics I students will transfer academic skills to component designs in a project-based environment through implementation of the design process. Students will build prototypes or use simulation software to test their designs. Additionally, students will explore career opportunities, employer expectations and educational needs in the robotics and automation industry. |
| $\begin{aligned} & \text { T923 ROBOTICSII } \\ & 13037050 \end{aligned}$ | Yearlong <br> Level 3 <br> Grade 10-11 <br> Credit 1 <br> Weight 1.0 | In Robotics II, students will explore artificial intelligence and programming in the robotic and automation industry. Through implementation of the design process, students will transfer academic skills to component designs in a project-based environment. Students will build prototypes and use software to test their designs. <br> Prerequisites: Robotics I |
| T917 PRACTICUM IN MANUFACTURING-ROBOTICS 13033000 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | The Practicum in Manufacturing course is for students who will explore advanced artificial intelligence and programming in the robotic and automation industry. Through implementation of the design process, students will transfer academic skills to component designs in a project-based environment. Students will build prototypes and use software to test their designs. |

## Transportation, Distribution \& Logistics

## AUTOMOTIVE TECHNOLOGY

## Judson High School

| T728 AUTOMOTIVE BASICS 13039550 | Yearlong <br> Level 1 <br> Grade 9-10 <br> Credit 1 <br> Weight 1.0 | Automotive Basics includes knowledge of the basic automotive systems and the theory and principles of the components that make up each system and how to service these systems. Automotive Basics includes applicable safety and environmental rules and regulations. In Automotive Basics, students will gain knowledge and skills in the repair, maintenance, and servicing of vehicle systems. The focus of this course is to teach safety, tool identification, proper tool use, and employability. |
| :---: | :---: | :---: |
| T704 AUTOMOTIVE TECHNOLOGYI 13039600 | Yearlong <br> Level 2 <br> Grade 10-11 <br> Credit 2 <br> Weight 1.0 | Automotive Technology I: Maintenance and Light Repair includes knowledge of the major automotive systems and the principles of diagnosing and servicing these systems. This course includes applicable safety and environmental rules and regulations. In Automotive Technology I: Maintenance and Light Repair, students will gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. <br> Prerequisite: Automotive Basics |
| T714AUTOMOTIVE TECHNOLOGY II: 13039700 | Yearlong <br> Level 3 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Automotive Technology II: Automotive Service includes knowledge of the major automotive systems and the principles of diagnosing and servicing these systems. Automotive Technology II: Automotive Service includes applicable safety and environmental rules and regulations. In this course, students will gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. <br> Prerequisites: Automotive Technology I |
| T729 PRACTICUM IN TRANSPORTATION SYSTEMS: AUTOMOTIVE TECHNOLOGY 13040450 | Yearlong <br> Level 4 <br> Grade 11-12 <br> Credit 2 <br> Weight 1.0 | Practicum in Transportation Systems is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience such as internships, mentorships, independent study, or laboratories. The Practicum can be either school lab-based or work-based. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. <br> Prerequisites: Automotive Technology II |

## CAREER AND TECHNICAL ORGANIZATIONS

Career and Technical Student Organizations (CTSOs) play an integral part in a student's career and technical Education CTSOs enrich student learning that starts in the classroom, build strong partnerships between industries and future employees, and provide future career experience that students carry into their careers and communities. https://txcte.org/teachers. Student CTSO membership requires student enrollment in the respective pathway.
BPA
Business Professionals of America members compete in demonstrations of their business
technology skills, develop their professional and leadership skills, network with one
another and professionals across the nation, and get involved in the betterment of their
community through good works projects.

## Glossary

| Career Clusters | This is the grouping of course sequences (Programs of Study) that prepare <br> students for careers in the same field of study or that require similar skills. |
| :--- | :--- |
| Course Credit | A unit of measure awarded for successful completion of a course. Completion <br> of a one term course typically earns one-half credit for a student. |
| Coherent Sequence | A series of courses in which vocational and academic education are integrated, and <br> which directly relates to, and leads to, both academic and occupational <br> competencies. |
| CTE Courses | These course prepare students for careers. These were once called <br> vocational courses. The CTE stands for Career and Technical Education. |
| Aistinguished Level of | A high level of academic achievement earned by going above <br> and beyond the Foundation Endorsement High School Program. A student must <br> earn this designation to be eligible for the top 10 percent automatic admission to a |
| Texas public university. |  |

| 716 ART III URBAN ART II 03501300 <br> This course may be a local credit if Art III Drawing II was a course previously taken | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | Having shown skill and creativity in Art I and/or Art II, students will continue to explore visual artistic expression as it relates to the greater context of Folk Art. Emphasis will be placed on the Urban Hip Hop movement as a cultural and social form of art. Students will experiment with and create styles of Urban Art with a variety of 2-D media. Lab Fee-\$25 per year. <br> Prerequisite: Urban Art I and recommendation of a previous art teacher. OR |
| :---: | :---: | :---: |
| 798- ART IV URBAN ART III 03502300 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | OR <br> Prerequisite: Urban Art II and recommendation of a previous art teacher. |
| 795 ART II CERAMICS I 03500900 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Having shown skill and creativity in sculpture, students will continue to explore the clay medium in the form of coil, slab, and pinch methods of building both functional-type and formal-type forms; and use the potter's wheel to create lidded, handled, and mixed media forms of pottery. <br> Lab Fee-\$25 per year <br> Prerequisite: HS Art I and teacher review of portfolio submission. |
| 703W1 ART III CERAMICS II 03501800 | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.0 | This art class is designed for the advanced placement student or art career bound student who needs more studio time to complete an art portfolio. The teacher will work closely with each student to choose an area of study or concentration based on a particular visual interest or problem to be worked on each term. Lab Fee - $\$ 25$ per year <br> Prerequisite: HS Art I, Art I Ceramics and teacher review of portfolio submission. |
| 704W2 ART IV CERAMICS III 03502700 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.0 | OR <br> Prerequisite: Art II Ceramics and teacher review of portfolio submission. <br> *Can be paired with AP 3-D Art course |
| $\begin{aligned} & \text { 702W3 ART II FIBERS } 1 \\ & \text { 03500800 } \\ & \text { JUDSON HS ONLY } \end{aligned}$ | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Having shown the ability to think and work in the third dimension in the Art I class, students will continue to study the historical evolution and techniques of fiber art. Weaving, sewing, and other mediums. Media used in this course include fabric, yarn, string, and other materials. Lab Fee - $\$ 25$ per year Prerequisite: HS Art I |
| 702W4 ART II JEWELRY I 03501100 JUDSON HS ONLY | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Having shown the ability to think and work in the third dimension in the Art I class, students will continue to study the historical evolution and techniques of jewelry and metals. Media used in this course include wire, copper, silver, and other materials. Lab Fee - $\$ 30$ per year |
| 712A AP ART HISTORY A3500100 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.2 | This course is designed to provide the same benefits to secondary school students as are provided by an introductory collage course in art history: an understanding and enjoyment of architecture, sculpture, painting, and other art forms with an historical and cultural context. The students will examine major forms of artistic expression and learn to look at works of art critically, with intelligence and sensitivity, and to articulate what they see or experience. Strong reading and writing skills are a must. Students are expected to take the College Board Exam for possible College Credit. <br> Lab Fee - $\$ 10$ \& AP Exam Fee <br> This is a double blocked course paired with another Art Course (if possible). |

| 711A AP ART STUDIO: <br> DRAWING PORTFOLIO <br> A3500300 <br> Linked to Spring Art III \& IV | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.2 | This course is designed for the serious art student who feels that they may want to major or minor in art while in college or have a career in art after high school. Students will work to compile a portfolio of their art works to be submitted to the College Board for possible advanced placement college credit. During this course, the student will work with different media and solve a variety of problems in drawing. <br> The AP studio class should be taken in conjunction with a class of painting or drawing (level III or IV) <br> Lab Fee - \$30 \& AP Exam Fee <br> Prerequisite: Art I, Art II (any media) \& recommendation of a previous art teacher. <br> This is a double blocked course paired with another Art Course (if possible). |
| :---: | :---: | :---: |
| 713A AP STUDIO ART: 2D <br> DESIGN PORTFOLIO <br> A3500400 <br> Linked to Spring Art III \& IV | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.2 | This course is designed for the serious art student who feels that they may want to major or minor in art while in college or have a career in art after high school. Students will work to compile a portfolio of their art works to be submitted to the College Board for possible advanced placement college credit. During this course, the student will work with different media and solve a variety of problems in 2D design. <br> The AP studio class should be taken in conjunction with a class of painting or drawing (level III or IV) <br> Lab Fee- \$30 and AP Exam Fee <br> Prerequisite: Art I, Art II (any media) \& recommendation of previous art teacher. <br> This is a double blocked course paired with another Art Course (if possible). |
| 714A AP STUDIO ART: 3D DESIGN PORTFOLIO EXTENDED COURSES A3500500 | Yearlong <br> Grade 11-12 <br> Credit 1 <br> Weight 1.2 | This course is designed for the serious art student who feels that they may want to major or minor in art while in college or have a career in art after high school. Students will work to compile a portfolio of their art works to be submitted to the College Board for possible advanced placement college credit. During this course, the student will work with different media and solve a variety of problems in 3D design. <br> The AP studio class should be taken in conjunction with a class of sculpture (level III or IV). <br> Lab Fee- \$30 and AP Exam Fee <br> Prerequisite: Art I, Art II (any media) \& recommendation of previous teacher. <br> This is a double blocked course paired with another Art Course (if possible). |
| 786 ART \& MEDIA COMMUNICATION I 03500120 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The pioneering visual art curriculum combines the powerful art principles with technology to bridge traditional Fine Arts education with contemporary digital media applications. One expected outcome is to equip students with 21st century skills that are highly sought after by colleges and the workforce. The courses combine rigorous and relevant experiential study of Modern, post-modern, and contemporary art and design with explorative student learning on various media platforms. |
| 701D ART I APPRECIATION <br> Dual Credit <br> ARTS 1301 Art Appreciation $03500110$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.1 <br> College Credit <br> 3 Hours | This course presents an introduction to the exploration of purposes and processes in the visual arts including evaluation of selected works. <br> Prerequisite: Attempted TSIA ELAR |

## Performing Arts

## Coherent Sequence of Courses Judson ISD

Performing Arts - Four credits of sequential classes in UP TO TWO of the following strands, MUSIC, THEATRE, or DANCE, as long as at least on Level III or IV course is included. (For example, a student might take courses in both Theatre and Dance, or courses in both Music and Theatre).

| BAND <br> Students will take courses in order, starting with Level I in whatever grade they enter the course. <br> They will then sequence to level II, III, etc. | Depending on Audition: <br> - 731 Band <br> - 735M Instrumental Ensemble I <br> - 726 Color Guard I <br> - 731M7 Jazz Ensemble I <br> - 741 Applied Music I | Depending on Audition: <br> - 732 Band II <br> - 736M Instrumental Ensemble II <br> - 727 Color Guard II <br> - 732M7 Jazz <br> Ensemble II <br> - 742 Applied Music II | Depending on Audition: <br> - 733 Band III <br> - 737M Instrumental Ensemble III <br> - 728 Color Guard III <br> - 733M7 Jazz Ensemble III <br> - 743 Applied Music III <br> - 739 Music Theory I | Depending on Audition: <br> - 734 Band IV <br> -738M Instrumental Ensemble IV <br> - 729 Color Guard IV <br> - 734M7 Jazz Ensemble IV <br> - 744 Applied Music IV <br> - 740A AP Music Theory |

| 751-754 CHORAL MUSIC I, II, III, IV <br> 751 CHOIR I <br> (N1, N2, N3, N4, N5, N6) <br> 03150900 <br> 752 CHOIR II <br> (N1, N2, N3, N4, N5, N6) 03151000 <br> 753 CHOIR III <br> (N1, N2, N3, N4, N5, N6) 03151100 <br> 754 CHOIR IV <br> (N1, N2, N3, N4, N5, N6) <br> 03151200 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Choir courses support continuing development of vocal music skills and musical understanding begun in elementary and/or middle school. Although these are four separate courses, Choir IIV may be taught in combination. In these classes, students receive identical instruction and perform the same literature but receive credit for the course in which they are enrolled. Differentiation is made in performance expectations as students' progress in the continuum of development represented in these four courses. <br> Prerequisite: Director will select/place based on audition/past experience. <br> There are program fees associated with these courses. |

| 751-754N1 VARSITY MIXED CHOIR | The Varsity Mixed Choir is a varsity level choir. Membership is by audition only. Choir members receive advanced training in all aspects of choral singing including sight-singing, ear-training, concert performances and UIL contest. Other activities include TMEA auditions, UIL Solo/Ensemble, competitive music festivals, and spring tours both in and out of state. |
| :---: | :---: |
| 751-754N2 VARSITY TREBLE CHOIR | The Varsity Treble Choir (females) is a varsity level choir. Membership is by audition only. Choir members receive advanced training in all aspects of choral singing including sight- singing, eartraining, concert performances and UIL contest. Other activities include TMEA auditions, UIL Solo/Ensemble, competitive music festivals, and spring tours both in and out of state. |
| 751-754N7 VARSITY TENOR/BASS CHOIR | The Varsity Tenor/Bass Choir (males) is a varsity level choir. Membership is by audition only. Choir members receive advanced training in all aspects of choral singing including sight- singing, eartraining, concert performances and UIL contest. Other activities include TMEA auditions, UIL Solo/Ensemble, competitive music festivals, and spring tours both in and out of state. |
| 751-754N3 NON-VARSITY TREBLE CHOIR | The Non-Varsity Treble Choir is an intermediate level choir for students with some high school choral experience. No audition is required. Choir members receive ongoing training in all aspects of choral singing including sight-singing, concert performances and UIL contest. Students may participate in other activities such as TMEA auditions, UIL Solo/Ensemble, competitive music festivals, and spring tours both in and out of state. |
| 751-754N4 BEGINNING TREBLE CHOIR | The Beginning Treble Choir is a training-level choir for students with no previous high school choral experience. No audition is required. Choir members receive instruction in fundamentals of sight-singing, ear-training, and concert performances. Students have the opportunity to participate in other activities including TMEA auditions, UIL Solo/Ensemble, competitive music festivals, and spring tours both in and out of state. |
| 751-754N5 BEGINNING TENOR/BASS CHOIR | The Beginning Tenor/Bass Choir is a training-level choir for students with no previous high school choral experience. No audition is required. Choir members receive instruction in fundamentals of sight-singing, ear-training, and concert performances. Students have the opportunity to participate in other activities including TMEA auditions, UIL Solo/Ensemble, competitive music festivals, and spring tours both in and out of state. |
| 751-754N6 AMBASSADORS | An auditioned show choir of SATB voicing for advanced $10^{\text {th }}-12^{\text {th }}$ graders. Members of this ensemble will be selected from the Varsity \& Non-Varsity choirs and will need to have two choir classes in their schedule. Ambassadors will sing a variety of pop and vocal jazz music, some of which involves choreography. They will be featured on each choir concert and participate in offcampus community concerts in November and December. Prerequisites include stage presence, sight reading ability, vocal ability, coordination, a positive attitude, responsibility, and passing grades. Unexcused absences will be grounds for removal. |

| 755-758 VOCAL ENSEMBLES <br> 755 VOCAL ENSEMBLES I <br> (N1, N2, N3, N4, N5, N6, N7) 03152100 <br> 756 ENSEMBLES II <br> (N1, N2, N3, N4, N5, N6, N7) <br> 03152200 <br> 757 VOCAL ENSEMBLES III <br> (N1, N2, N3, N4, N5, N6, N7) 03152300 <br> 758 VOCAL ENSEMBLES IV (N1, N2, N3, N4, N5, N6, N7) 03152400 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Vocal Ensemble is an advanced level choir for students with superior vocal and musical abilities. Membership is by audition only. Students must be concurrently enrolled in a varsity-level choir. Choir members serve as school and community ambassadors through performances at various events throughout the school year. <br> Prerequisite: Director will select/place based on audition/past experience |
| :---: | :---: | :---: |
| 721-724 ORCHESTRA <br> I, II, III, IV <br> 721 ORCHESTRA I <br> (01, O2, O3, O4) <br> 03150500 <br> 722 ORCHESTRA II <br> (O1, O2, O3, O4) <br> 03150600 <br> 723 ORCHESTRA III <br> (01, 02, O3, O4) <br> 03150700 <br> 724 ORCHESTRA IV <br> (01, O2, O3, O4) <br> 03150800 <br> 721-724O1 VARSITY ORCHESTRA <br> 721-724O2 NON-VARSITY ORCHESTRA <br> 721-724O3 SUB NONVARSITY ORCHESTRA <br> 721-724O4 BEGINNING ORCHESTRA | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | Members in the orchestra will develop intermediate and advanced skills on the violin, viola, cello and bass. They will learn and play a wide variety of musical styles from traditional to very modern as well as a variety of cultural music. Members in the orchestra will participate in UIL events, TMEA activities, community performances and competitions throughout the school year in form of large ensembles, small ensembles and solos. There are a limited number of instruments that can be issued from the school after the JISD Instrument usage fee is paid. <br> Program fees may apply. |

| 745 MUSIC \& MEDIA COMMUICATIONS I 03156400 <br> 746 MUSIC \& MEDIA COMMUNICATIONS II 03156500 | Yearlong <br> Grade 9-12 <br> Credit 1 <br> Weight 1.0 | The innovative music curriculum aims to ensure that all students, who may or may not have an extensive background in music, experience exciting, hands-on instruction in music while integrating digital media. The standards-based instruction focuses on fundamental music skills, but students will also explore and discover their own personal musicality using media-based resources for listening, recording, sharing, and composing, and most importantly making music. |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { 1306D MUSIC } \\ & \text { APPRECIATION } \\ & \text { DUAL CREDIT } \\ & \text { MUSI } 1306 \\ & 03155600 \end{aligned}$ | Yearlong <br> Grade 10-12 <br> Credit 1 <br> Weight 1.1 <br> College Credit: <br> 3 Hours | The course focuses on understanding music through the study of cultural periods, major composers, and musical elements. Illustrated with audio recordings and live performances. <br> Prerequisite: Attempted TSIA |

| 761-764 DANCE, PRINCIPLES OF DANCE I, II, III, IV | Yearlong <br> Grade 9-13 <br> Credit 1 <br> Weight 1.0 | This course is designed to introduce students to the fundamental skills of dancing. Students will study a variety of units to serve the dance fine arts education. This course will include topics ranging from basic knowledge of dance terminology and skill in ballet, lyrical, hip-hop, modern, contemporary, improvisation, and social dance in order to build an understanding and mastery of the choreography techniques, spatial awareness, rhythmic structure, stage production and history of dance. Required: Dance II-IV Successful completion of the previous level |
