

Resources to Support Summer Learning at Home

For Families

Here are some fresh, engaging resources to keep students engaged at home this summer with Discovery Education. Sign in to DE before accessing these links.

[Learning at Home Channel](#)

Explore interests, sharpen skills, and have fun with this awesome collection of activities.

[Virtual Field Trips](#)

Explore some of the world's most iconic locations—no permission slips required!

Grades K-5

[Amazing Me:](#) Find a collection of family activities to support conversations at home around life-long confidence and self-esteem.

[Vooks:](#) Enjoy this delightful collection of storybooks brought to life through animation.

[Earth to Luna:](#) Follows Luna, her brother Jupiter, and pet ferret Clyde on real-life and imaginary adventures to explore life, physical, and earth and space science concepts. These stories are also available in Spanish.

Grades 6-12

[Science Fair Central:](#) Take projects to the next level with the Maker Corner in the Science Fair Central channel.

[Science at Home:](#) Create your own science experiments at home . . . with adult supervision, of course!

[Audiobooks:](#) Spark your imagination and explore the full collection of Audiobooks—from science fiction and famous poetry, to modern young adult favorites, and so much more.

Find these and more in the Summer of Learning Channel.
