

New to Hartman?

New student transitions:

Our Knights of Valor students welcome you!

Our Knights of Valor, led by our 4th and 5th grade students, bring military and civilian students together to welcome new students, create a positive environment, support academic excellence, and ease transitions. This program provides support to military-connected students through peer-to-peer mentoring programs.

New students are given a tour of the campus to help familiarize them with their classes and are provided with a friend to eat lunch with on their first day of school. The new student is provided with a buddy, allowing them to connect with new friends and to learn about the campus, culture, and community.

Our Goal

- Support and appropriately respond to our military connected students' academic, social, and emotional needs.
- Empower our parents and support adults with training and knowledge to ensure our military-connected children are college, career, military, and life ready.
- Build a strong community partner that supports an environment where our military-connected students thrive.
