Judson ISD is partnering with Community Labs, to offer district-wide screenings with the goal of capturing any asymptomatic carriers of COVID-19 following Spring Break. The nonprofit Community Labs currently tests at 30 Judson ISD campuses on a weekly basis using a highly sensitive PCR test returning results within 24 hours, allowing administrators to notify any COVID-19-positive students and staff quickly so they can quarantine. This assurance testing strategy creates a COVID-19 Safety Zone and a pathway for schools to reopen, people to return to work and communities to recover.
