## Communication Plan

The TSTEM Academy focuses on a technology rich, problem based learning environment. A professional learning environment allows students, staff, and community to collaboratively discover, innovate, and solve real world problems. The TSTEM Academy uses technology through the district wide calling system, Bright Arrow, to alert parents and students of upcoming events. The community is notified through personal invitations or the use of our school marquee. Monthly newsletters are sent to TSTEM parents and staff. Our recruitment events begin in November to invite the community, 8<sup>th</sup> grade parents and students to participate in various campus events in order to receive information about our program.
